Subject: Barmouth North Promenade Flood Alleviation Scheme - Pre-application advice.

Dear Marine Licensing Team,

Arup, on behalf of Alun Griffiths Contractors (AGC) and Ymgynghoriaeth Gwynedd Consultancy (YGC), are preparing the marine licence application for Barmouth North Promenade Flood Alleviation Scheme (the proposed development).

We would like to make a pre application enquiry regarding our clients plans to submit a marine licence for the proposed development and the associated documents planned to be submitted.

The proposed development is located within Barmouth North Promenade, Barmouth, Gwynedd. Briefly, the proposed development (including works above and below MHWS) will comprise:

- *Patch repairs of the primary sea wall over a length of approximately 1.2km.*
- *Secondary flood wall to be re-built and increased in height (to a maximum of 1.7m) over a length of approximately 1.1km.*
- *Existing sheet piles to be refurbished over approximately 750m length.*
- *Rock armour to be provided at beach level to protect the primary sea wall, revetment and part of the railway line North of the promenade.*
- *Refurbishment of culverted outfall and reinstatement of non-return valve.*
- *Provision of demountable flood defences where access is required.*
- *Placemaking, access and landscaping improvements.*

Please see attached plan of works.

Works are scheduled to commence in Summer 2026 and due to be completed in Summer 2028, taking approximately 24 months.

We are currently preparing to submit a Band 3 Marine Licence for the works (targeting submission December 2025). We plan to submit the following documents/ drawings with the marine licence application:

- *Environmental Statement*
- *Water Framework Directive Assessment*

- *Habitats Regulation Assessment Screening and Appropriate assessment*
- *Outline Construction Environmental Management Plan*
- *Design plans*
- *Welsh National Marine Plan Compliance Note*
- *Plan/s showing location of works and details of proposed works below MHWS*
- *Method statement*

For context, a Band 2 Marine Licence was previously applied for and determined for Ground Investigation works associated with the proposed development earlier this year (application number RML2527).

We would welcome your advice on whether the above list is sufficient. We hope that by engaging with you, this will mitigate any delays when it comes to submitting the marine licence.

Kind Regards,

Owain Griffith, MCIWEM | PIEMA
