Introductory note

This introductory note does not form a part of the notice

The following notice gives notice of the variation of an environmental permit.

This is an operator-initiated variation to remove waste codes that are no longer relevant to the activities on site from the permit, and include treatment of remaining waste codes using a trommel screen, shredder and power screen. This also includes a regulator-initiated variation to include/ update conditions relating to fire risk mitigation.

The schedules specify the changes made to the original permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
