1. Summary of our findings (full details in section 4)

Part of permitted activity assessed (criteria)	Assessment result	Non-compliant permit condition
WQ-C1 - Water Quality - Emissions and monitoring - Emissions to water	Assessed (A)	

Result types are explained in more detail in the 'Important Information' section below.

2. What action is required?

No action required.

3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

At this time, we do not intend to take any further action.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

On the 6/1/2026 NRW sent CAR_NRW0051155 relating to an exceedance of Ammoniacal Nitrogen which is set at 1.3mg/l as a permit limit but was exceeded when a sample on the 13/1/2026 was at a level of 3.23mg/l. The CAR on the 6/1/2026 was actioned to record

compliance with the Look Up Table (LUT) provisions in the permit.

NRW received an exceptional circumstances claim report on the 29/1/2026 for the exceedance. Following internal consultation and consideration of the claim we are not accepting the claim of exceptional circumstance on this occasion. The underlying cause of the exceedance is detailed to have been the return of a septic storm tank into the system, when the temperature of the effluent due to cold weather conditions resulted in a less efficient treatment process. This should have been foreseen due to the snow and freezing temperatures. NRW believe the effluent should have been released at a lower volume or the tank contents removed from the system by tanker.

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm to the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action required for the permit condition assessed to avoid non-compliance. No non-compliance scored at this time
