

Supporting document: Form C3, Table 1a – Listed Activities currently permitted

Schedule 1 listed activities				For installations that take waste only		
Installation / Activity name	Schedule references	Description of the Activity	Activity Capacity	Annex 1 and Annex 2 (disposal and recovery) codes	Hazardous waste treatment capacity	Non-hazardous waste treatment capacity
Aqueous Hazardous waste	5.3 Part A(1)(a) Disposal or recovery of hazardous waste with a capacity exceeding 10 tonnes per day involving one or more of the following activities: (ii) physico-chemical treatment; (iii) blending or mixing prior to submission to any of the other activities listed in this section or in section 5.1; (iv) repackaging prior to submission to any of the other activities listed in this section or in section 5.1; (vi) recycling or reclamation of inorganic materials other than metals or metal compounds	Treatment of hazardous aqueous waste for disposal or recovery.	Total of 74,999 per year	D9 Physico-chemical treatment not specified elsewhere which results in final compounds or mixtures which are discarded by means of any of the operations numbered D1 to D12. D13 Blending or mixing prior to submission to any of the operations numbered D1 to D13. D14 Repackaging prior to submission to any of the operations numbered D1 to D13. D15 Storage pending any of the operations numbered D1 to D14 (excluding temporary storage, pending collection on the site where the waste is produced). R5 Recycling/reclamation of other inorganic materials. R13 Storage of waste pending any of the operations numbered R1 to R12 (excluding temporary storage, pending collection, on the site where the waste is produced).	Total of 74,999 per year	0

Supporting document: Form C3, Table 1a – Listed Activities currently permitted

Hazardous Waste Recycling process	Section 5.3 Part A(1)(a)(ii) Disposal or recovery of hazardous waste with a capacity exceeding 10 tonnes per day involving one or more of the following activities: (ii) physico-chemical treatment; (iii) blending or mixing prior to submission to any of the other activities listed in this section or in section 5.1; (iv) repackaging prior to submission to any of the other activities listed in this section or section 5.1; (vi) recycling or reclamation of other inorganic materials other than metals or metal compounds; (viii) recovery of components used for pollution abatement.	Treatment of APCr for recovery or disposal.	Total of 74,999 per year	D9 Physico-chemical treatment not specified elsewhere in this Annex which results in final compounds or mixtures which are discarded by means of any of the operations numbered D1 to D12 (e.g. evaporation, drying, calcination, etc.) D13 Blending or mixing prior to submission to any of the operations numbered D1 to D12. D14 Repackaging prior to submission to any of the operations numbered D1 to D13. R 5 Recycling/reclamation of other inorganic materials. R 7 Recovery of components used for pollution abatement.	Total of 74,999 per year	0
Aqueous non-hazardous waste	Section 5.4 Part A(1) (a) Disposal of non- hazardous waste with a capacity exceeding 50 tonnes per day (or 100 tonnes per day if the only waste treatment activity is anaerobic digestion) involving one or more of the following activities, and excluding activities covered by Council Directive 91/271/EEC concerning urban waste- water treatment (ii) physico-chemical treatment	Treatment of non-hazardous aqueous waste for disposal	Total of 74,999 per year	D9 Physico-chemical treatment not specified elsewhere which results in final compounds or mixtures which are discarded by means of any of the operations numbered D1 to D12. D13 Blending or mixing prior to submission to any of the operations numbered D1 to D13. D14 Repackaging prior to submission to any of the operations numbered D1 to D13.	0	Total of 74,999 per year

Supporting document: Form C3, Table 1a – Listed Activities currently permitted

Non Hazardous Waste Recycling Process	Section 5.4 Part A (1) (b) Recovery or a mix of recovery and disposal of non-hazardous waste with a capacity exceeding 75 tonnes per day (or 100 tonnes per day if the only waste treatment activity is anaerobic digestion) involving one or more of the following activities, and excluding activities covered by Council Directive 91/271/EEC (iii) treatment of slags and ashes	Treatment of APCr for recovery or disposal.	Total of 74,999 per year	D9 Physico-chemical treatment not specified elsewhere in this Annex which results in final compounds or mixtures which are discarded by means of any of the operations numbered D1 to D12 (e.g. evaporation, drying, calcination, etc.) D13 Blending or mixing prior to submission to any of the operations numbered D1 to D12. D14 Repackaging prior to submission to any of the operations numbered D1 to D13. R5 Recycling/reclamation of other inorganic materials. R7 Recovery of components used for pollution abatement.	0	Total of 74,999 per year
Oil water process	Section 5.3 Part A(1) (a) Disposal or recovery of hazardous waste with a capacity exceeding 10 tonnes per day involving one or more of the following activities (ii) physico-chemical treatment.	Treatment of waste oils.	Total of 74,999 per year	R3 Recycling/reclamation of organic substances which are not used as solvents (including composting and other biological transformation processes). R9 Oil re-refining or other reuses of oil.	Total of 74,999 per year	0
Waste storage and transfer	Section 5.6 Part A(1)(a) Temporary storage of hazardous waste with a total capacity exceeding 50 tonnes pending any of the activities listed in section 5.1, 5.2, 5.3, except	Temporary storage of waste pending transfer off	Total of 74,999 per year.	D15 Storage pending any of the operations numbered D1 to D14 (excluding temporary storage, pending collection, on the site where the waste is produced)	Total of 74,999 per year No more than 2,500 tonnes	Total of 74,999 per year

Supporting document: Form C3, Table 1a – Listed Activities currently permitted

	temporary storage, pending collection, on the site where the waste is generated.	site for recovery or disposal.	No more than 2,500 tonnes of waste shall be stored at any one time.	R13 Storage of waste pending any of the operations numbered R 1 to R 12 (excluding temporary storage, pending collection, on the site where the waste is produced).	of waste shall be stored at any one time.	No more than 2,500 tonnes of waste shall be stored at any one time.
Cement Blending	Section 3.1 Part B (b) Blending cement in bulk or using cement in bulk other than at a construction site, including the bagging of cement and cement mixtures, the batching of ready mixed concrete and the manufacture of concrete blocks and other cement products.	Mixing and use of cement products.				
Name of DAA		Description of DAA				
Discharge of trade effluent to sewer						
For installations that take waste		Total storage capacity of non-hazardous waste			2,500 Tonnes (Hazardous and Non-Hazardous)	
		Total storage capacity of hazardous waste			2,500 Tonnes (Hazardous and Non-Hazardous)	
		Annual throughput (tonnes per year)			74,999 Tonnes
