---

Dear Sir/Madam,

I am writing to request confirmation of the location and approximate distance to the nearest public foul sewer in relation to the following property:

The White Eagle  
Rhoscolyn  
Holyhead  
Anglesey  
LL65 2NJ

12-character grid reference: SH 27043 75605

The enquiry relates to a proposed trade effluent discharge from the premises, which is to be served by a packaged wastewater treatment plant.

We are currently preparing supporting information for an environmental permit application and require confirmation from the sewerage undertaker regarding the availability of a public foul sewer connection.

Based on our current assessment, the nearest public foul sewer appears to be approximately 2,600 metres from the site boundary in Four-mile -bridge. Due to this significant distance, a connection is considered unlikely to be reasonably practicable owing to the requirement for extensive off-site infrastructure, potential pumping arrangements, third-party land access, and associated construction and operational costs.

We would be grateful if you could:

- Confirm the location of the nearest public foul sewer to the above site;
- Confirm the approximate distance from the site boundary to that sewer; and
- Advise whether connection to the public foul sewer is considered feasible in principle.

Any written confirmation you can provide would be greatly appreciated to support the permit application.

Please let me know if you require any further information.

Kind regards,

*Paul Roberts*
