3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

At this time, we do not intend to take any further action.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

On 1 June 2026, Natural Resources Wales (NRW) received a report of pollution relating to suspended solids within an unnamed tributary of the River Wye. This watercourse receives discharges from the outfall point and storm overflow from your site.

An NRW officer attended the location on 2 June 2026 at approximately 6:00am and confirmed the presence of residual sediment and visible suspended solids within the watercourse. Based on observations made during the inspection, your site is considered a potential source of this pollution incident.

To further our investigation into this, please could you provide the following information;

- **Telemetry Data**

Please provide telemetry data relating to all discharges from your site, including storm overflow activity, for the period 31st May 2026 to 3rd June 2026 by 19 June 2026

1. **Site Inspection and Maintenance**

Please inspect all traps located on site and, where necessary, ensure they are emptied and de-sludged.

Confirmation of completion, including details of any maintenance undertaken, should be provided by 19 June 2026

2. **Explanation of Discharge**

Please provide an explanation for the cloudy appearance of the discharged water, including the likely cause of the elevated concentrations of suspended solids observed, by 19 June 2026.

Thank you.

If you have any queries about this report, or to discuss completion of any actions, please contact the NRW Officer named above.

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm to the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action required for the permit condition assessed to avoid non-compliance. No non-compliance scored at this time
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property
