

Compliance Assessment Report CAR_NRW0049417

Permit being assessed: BP0062701

For: St Davids Wastewater Treatment Works, **held by:** DWR CYMRU CYFYNGEDIG

At: Ffordd Porth Clais, St Davids, Pembrokeshire, SA62 6RR.

Type of assessment carried out: Audit,

Reason: Other.

On 17/09/2025, between 11:20 and 12:10.

Parts of permit assessed: ALL

NRW Lead Officer: Rod Thomas.

Report sent to: Cars Mailbox, Cars Mailbox, on 11/06/2026.

1. Summary of our findings (full details in section 4)

Part of permitted activity assessed (criteria)	Assessment result	Non-compliant permit condition
WQ-C1 - Water Quality - Emissions and monitoring - Emissions to water	C3 Minor	Table S4.1 (EDM)

Result types are explained in more detail in the 'Important Information' section below.

2. What action is required?

Criteria	Action needed	Complete by
WQ-C1	Investigate and correct issue	03/11/2025

Action criteria codes are listed in the 'Important information' section below.

3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

At this time, we do not intend to take any further action.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

Notes taken during site visit

Final effluent appeared to run clear

At the inlet, there was grit build up. DCWW confirmed that the upstream network was to be inspected in order to identify potential causes.

The aeration ditch had build up of vegetation which should be removed.

Permit conditions; BOD 40 m/gl, SS 60 mg/l.

On site final effluent reading was 10.4l/s

Actions required by DCWW following site visit

- 1 Confirm FPF compliance, raw data not required, just confirmation of compliance
- 2 Confirm DWF compliance, raw data not required, just confirmation of compliance
- 3 Investigate and correct EDM monitor issue at the inlet.

Please respond by 3 November 2025

Further to your email of Friday 17 October 2025.

At the time of the audit, the DCWW representative stated that the sensor for the EDM to the storm tank was malfunctioning and not provided reliable data. As a result of this, we believed this could have a minor impact, hence the C3 score.

New deadline for response 10 November 2025

DCWW email received 14 November 2025

Update expected from the statutory maintenance team who are overseeing the work on the EDM for St Davids and will update you once we have got the full information.

They found the EDM monitor was unserviceable and therefore it was progressed to the EDM replacement programme 1st priority group. A survey was carried out on the 4th November to assess what equipment will be installed and planning. They estimated work will be completed by end of November.

Please confirm to NRW by the 5 December 2025 that the EDM monitor has been installed and running correctly.

Update received from DCWW 27 February 2026

Following further investigations, our operations team and EDM Maintenance team have now established a solution to complete the works needed to resolve this issue.

Due to several elements, it has taken longer than anticipated to establish the best way forward. As a result, we require until the end of April, whereby we will provide further update and evidence of our progress with best endeavours to complete sooner.

Update from DCWW expected by 30 April 2026

Email received from DCWW 11 June 2026

Action 3: Investigate and correct EDM monitor issue at the inlet.

Further to our previous updates regarding the EDM monitor at St Davids, we can confirm

that the issue has now been resolved. The new EDM was fully commissioned on 14 May 2026, and both tanks are now being monitored for overflow events.

END.

Closed and Verified

If you have any queries about this report, or to discuss completion of any actions, please contact the NRW Officer named above.

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm to the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action required for the permit condition assessed to avoid non-compliance. No non-compliance scored at this time
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property

Full list of water quality action criteria (used in section 1 and 2):**WQ A: Management**

- WQ-A1 General management

WQ B: Operations

- WQ-B1 Permitted activities
- WQ-B2 The site
- WQ-B3 Operating techniques
- WQ-B4 Improvement programme
- WQ-B5 Pre-operational conditions

WQ C: Emissions and monitoring

- WQ-C1 Emissions to water
- WQ-C2 Emissions to land
- WQ-C3 Emissions of substances not controlled by emission limits
- WQ-C4 Monitoring
- WQ-C5 Installation of monitoring boreholes

WQ D: Information

- WQ-D1 Records
- WQ-D2 Reporting
- WQ-D3 Notifications

Enforcement response

Any non-compliance with a permit condition is an offence and we may take legal action against you. Action we take can include prosecution, serving a notice on you and/or suspension or revocation of your permit. See our Enforcement and Sanctions Guidance for further information.

Data protection notice

You should make sure that anyone named in this report knows that the information it contains will be processed by Natural Resources Wales to fulfil its regulatory and monitoring functions and to maintain the relevant public register(s).

We may also use and/or disclose the report in connection with:

- offering or providing you with our literature or services relating to environmental matters
- consulting with the public, public bodies and other organisations (e.g. Health and Safety Executive, local authorities) on environmental issues
- carrying out statistical analysis, research and development on environmental issues
- providing public register information to enquirers
- investigating possible breaches of environmental law
- assessing customer service satisfaction and improving our service
- Freedom of Information Act or Environmental Information Regulations requests.

We may also pass it on to our agents or representatives to do these things on our behalf.

Disclosure of information – this report will be available to view on-line

If you think this report contains commercially confidential information that should not be placed on our public register, you must contact your local Natural Resources Wales office within **fifteen working days** of receiving this report, using the contact details in the accompanying email or letter. You must give a full explanation of why it should not be added to our public register, including specifying which information is commercially confidential. We will assess your request and respond to you within twenty working days to let you know if we agree to your request.

Disputing the Content of this Compliance Assessment Report Form

If you disagree with the content of this Compliance Assessment Report form, you should submit your concerns, in writing, to the regulating officer who issued it within **15 working days** of its issue. This will be treated as a **Stage 1 review**.

If you are not satisfied with the outcome of the stage 1 review, you may request a **Stage 2 appeal**. This request must be submitted **within 21 working days** of receiving the response from the stage 1 review.

Further details on our review and appeal process are available at: [Natural Resources Wales / Appeal a regulatory decision from Natural Resources Wales](#)

Concerns Not Related to the Content of this Compliance Assessment Report Form

If your concerns do not relate to the content of the Compliance Assessment Report form, you should first attempt to resolve the issue with the regulating officer or their line manager.

If the issue remains unresolved, please contact our **Customer Contact Team**:

- **Telephone:** 0300 065 3000 (Monday to Friday, 09:00–17:00)
- **Email:** enquiries@naturalresourceswales.gov.uk

They will provide details on how to escalate your concerns through our **Complaints and Commendations procedure**.

If you are dissatisfied with our response, you may contact the **Public Services Ombudsman for Wales**:

- **Telephone:** 0300 790 0203
- **Email:** ask@ombudsman.wales

Welsh Language Standards

We are committed to establishing Natural Resources Wales as a naturally bilingual organisation. We will provide compliance reports in your preferred language.
