| WQ-B3 - Water Quality - Operations - Operating techniques | Action only (X)   |                                |

Result types are explained in more detail in the 'Important Information' section below.

### 2. What action is required?

| Criteria | Action needed                                                                                            | Complete by |
|----------|----------------------------------------------------------------------------------------------------------|-------------|
| WQ-B2    | Complete vegetation removal from the filter beds.                                                        | 09/07/2026  |
| WQ-B3    | Inform when work on the distribution chambers to replace upper levels of the syphon blocks is completed. | 31/07/2026  |

Action criteria codes are listed in the 'Important information' section below.

### 3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

**At this time, we do not intend to take any further action.**

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

#### 4. Details of our assessment

Attended the site in the presence of two representatives from Dŵr Cymru Cyf.

Three actions have been identified:

1) Plastic mesh has been installed on the site's filter beds to prevent birds from removing the plastic media. The mesh is secured in place using bricks. Dŵr Cymru Cyf. is currently undertaking vegetation removal from the filter beds; however, this work must be completed within the specified timescale outlined in this action to ensure continued filter bed effectiveness.

2) Prior to the site inspection, you've identified that issues have been identified in the distribution chambers. The concrete on the upper levels of the syphon blocks has started to crack. Dwr Cymru have confirmed post site inspection that quote to undertake the work has been received during week commencing 8th June 2026.

Natural Resources Wales would like to thank representatives of Dŵr Cymru Cyf. for their cooperation prior to and during the visit.

If you have any queries about this report, or to discuss completion of any actions, please contact the NRW Officer named above.

## Important information

### Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm to the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

### Assessment results and non-compliance categories (used in section 1):

| Assessment result | Description                                                                                                      |
