Dredging

Is your application for capital or maintenance dredging? Capital dredging is the removal of material that has not previously been dredged or has not been dredged in the last 10 years. This includes deepening or widening an existing dredge area. Maintenance dredging relates to the removal of material from areas which have previously been dredged (in the last 10 years) i.e dredging the same areas and to the same depth as before.

Maintainence dredging

If this is to support a renewal of a marine licence, state if there are any proposed changes to operation since the last licence

No

Will the dredged material be disposed to sea, beneficially used, or used for another purpose?

Beneficially Used

If beneficial use, how will the material be used and what is the proposed deposit location? Provide name of location and coordinates

Material uplifted will be redistributed within the LW area adjacent to the main outer channel and also at the inner sand dunes area.
