Dear Mr W.D. & R.D. Vaughan

GROUNDWATER REGULATIONS 1998
GROUNDWATER AUTHORISATION NO.
ISSUED TO:
FOR THE SITE AT:

GWSW2894
Mr W.D. & R.D. Vaughan
Penlan Uchaf, Gwaun Valley, Fishguard

I am writing to inform you that your application for a Groundwater Authorisation has now been approved. You have been given Authorisation Number GWSW2894 and I would be very grateful if you would quote this reference in any future communications.

Please find a copy of your Authorisation enclosed. This is a legal document so please ensure that you store it away safely.

Your Authorisation now allows you to dispose of **spent sheep dip** at **Penlan Uchaf, Gwaun Valley, Fishguard**, provided that you do so without breaching any of the conditions of your Authorisation. If you do not understand any of the conditions or need an explanation, please contact me without delay at the address below.

In future, your circumstances may change, and we both may have concerns which may need to be sorted out. I have therefore explained below what may happen in relation to your Authorisation.

Your Authorisation will end on the 31st July 2016. It is your responsibility to ensure that you contact us a reasonable time prior to the end date of your Authorisation if you wish to continue to dispose of spent sheep dip at **Penlan Uchaf, Gwaun Valley, Fishguard**. We will need to reassess your Authorisation at that time to ensure that any risk to the environment is still adequately controlled. Provided that there is no reason to cancel the permission, an extension to the Authorisation will be issued at no additional cost.

- Your Authorisation applies only to the named holder making a disposal onto the area of land specified in the Authorisation. Therefore, if you move, you can not take your Authorisation with you and continue to dispose at another location. However, the holder of an Authorisation may transfer the Authorisation to another named person for use of the

same disposal area of land for the same purpose. This must be done prior to any disposal by the new occupier, and the current holder must inform the Agency of the transfer to the new holder.

- In the future, you may find that you do not need to dispose of spent sheep dip. In this case, please write and ask for your Authorisation to be withdrawn. After we have received your written request and we have confirmed that no Authorisation is required, we will instruct our finance department to stop billing you. Please note that we can not refund charges for parts of a year.

You can apply to us at any time to review the conditions of your Authorisation if, for example, you wish to increase the annual quantities disposed of. You must complete another application to do this and pay a fee .

The Authorisation will be reviewed at intervals of up to 4 years to take account of changes in circumstances. We may also change the conditions of your Authorisation if we think it is necessary to do this in order to prevent pollution of the environment. We will try to ensure that any such changes do not cause an unreasonable cost on your part.

You should be aware that the Agency has the power to revoke (i.e. cancel) your Authorisation at any time if this is considered to be justified. In such cases, a Notice will be given to you telling you of our reasons for the revocation. You have a right of Appeal against the decision.

If we revoke or amend your Authorisation or if you think that any of the conditions of your Authorisation are unreasonable, you may appeal to the National Assembly for Wales. A copy of the form on which you may appeal is available from the National Assembly for Wales, Cathays Park, Cardiff, CF10 3NQ.

As your application was received prior to 31st March 2004, it will benefit from a four-year waiver of annual subsistence fees. An annual subsistence charge will therefore apply four years from the date of this authorisation. It is important that you pay these Annual Charges promptly. Bills will be sent to you each year for as long as your Authorisation remains in existence. If you do not pay your bill promptly, we may take measures to remove your right to continue to dispose of spent sheep dip. Please note that if your Authorisation is revoked because of non-payment and you continue to dispose of spent sheep dip, you may be committing an offence for which you could be prosecuted.

I hope that this letter gives you enough information about the legal requirements of disposing spent sheep dip to land. However, if you are unclear on any of the above matters or need some further help or advice, please contact me on extension 5552 at the address below.

Yours sincerely

Mathew Griffiths

Application for a groundwater authorisation

Water quality

Groundwater Regulations 1998 (Regulation 18 Authorisation)

Part A

Before you fill in this application form

Before you start filling in your answers, please read through the whole form, as well as the information on the folder which came with the form, and the background notes on *Applying for a groundwater authorisation*.

Once you start to fill in your application, the notes next to the questions will help you provide the information we need to assess your application.

If you need help and advice

We have made the form as straightforward as possible. But please contact us if you need advice on how to set out the information we need.

Please get in touch with us on 0845 933 3111 or

- the number on the letter that came with this form or
- the number of the nearest regional office listed on the folder.

If you send in an application with information missing or incomplete, your application may be delayed.

Why you need to apply for a groundwater authorisation

Anyone who wants to dispose of listed substances to ground must get permission (authorisation) from the Environment Agency.

It is illegal to make a disposal without an authorisation.

To apply for an authorisation, please send us the completed application form and

- a map showing the location of the disposal site
- a plan of the disposal area
- the appropriate application fee.

If we need to ask you for more information about your application, we will get in touch by phone or letter.

Which parts of the form you need to fill in

Everyone has to fill in Parts A and B, and finally Part F at the end of the form. The other parts you have to fill in depend on the substances you plan to dispose of. (If you want to dispose of several substances you might need to fill in more than one of these parts.)

To apply for an authorisation to dispose of

- Used sheep dip – fill in Part C
- Waste pesticide and pesticide washings – fill in Part D
- Other agrochemicals – fill in Part E.

If you plan to dispose of substances on more than one part of the site, you must fill in one copy of Part B for each disposal area. Please take copies of Part B before you start filling it in.

Charges for disposal

You have to pay us a fee for processing this application. There may also be a separate annual charge based on the substances you are disposing of. The leaflet *Applying for a groundwater authorisation* gives details of the fees and charges you have to pay.

If you are not sure what fee you should pay, please contact us.

Now please fill in **Part B** and the other parts of the form we have sent you, then sign and date the form in **Part F**.

• Everyone must fill in this part of the application form.

B1 Location of the disposal site

B1.1 Please give the address of the disposal site.

Address	PENLAN UCHAF
	GWAUN VALLEY
	FISHEGUARD
Postcode	SA65 9UA

B1.2 Where the disposal site does not have an address, please describe its location.

For example, 'field at end of village lane'

Field as "Big Field" adjacent to Penlan Uchaf farm.

Maps

B1.3 Please supply a map of the site.

We need this map to be able to locate the site easily.

Note

For the map of the site, you can use a street or road atlas, or an Ordnance Survey map at 1:50 000 or 1:25 000 scale. These maps are available in your local library or bookshop.

The map should show the location of the site in relation to villages, towns or other landmarks.

B2 Disposal area

Note

You must fill in a copy of Part B for each disposal area you plan to use. If you are applying to dispose of substances on more than one area, please take photocopies of the part before you start filling it in. You normally only have to pay one fee for processing an application. However, you may have to pay more than one fee if your application for more than one disposal area involves a significant amount of additional work to assess the risk to the different areas.

If we require more than one fee, we will let you know before continuing with the assessment.

B2.1 Please supply a plan of each disposal area on the site.

The plan should show

- the boundaries of the disposal area
- the ownership/tenancy boundaries (i.e. areas under your control) – this is in case we need to suggest an alternative disposal area.
- water and land features – the following questions ask about these features.

Note

For the plan of the area, you could use Ordnance Survey maps at scales of 1:1 250 to 1:2 500 scale or a copy of an IACS map.

The plan will be used as the basis for an authorisation, so it must be as clear as possible.

Use the marks suggested in the column below. This will make the features of the site clearer and help us make our assessment.

Key features

We suggest that you use the following marks to identify the features of your land in this part.

- | | |
|----|-----------------------------|
| | DISPOSAL AREA |
| | STREAM OR DITCH |
| | UNDER OR LAND DRAINS |
| | SOAKAWAY |
| | DIRECTION OF DOWNHILL SLOPE |
| WS | WATERSOURCE OR SUPPLY |
| S | SPRING |
| W | WELL OR BOREHOLE |

B2 Disposal area continued

B2.2 Please give the Ordnance Survey national grid reference for the disposal area.

A grid reference is not the same as a field number.

For example, ST 12 34

SN 04 35

Note

How to find your grid reference

You can find Ordnance Survey maps at bookshops and libraries.

To work out the grid reference of your disposal area to the nearest kilometre square

- read the two letters identifying the 100 000 metre square (this will be noted on the front cover of the 1:25 000 scale maps, and will be marked in blue letters in the corners of the 1:50 000 scale maps for example ST _____
- locate the first vertical grid line to the left of your disposal area, and read the numbers labelling the line either on the top or bottom margin of the map for example ST 1 2 _____
- locate the first horizontal grid line below your disposal area and read the numbers labelling the line either on the left or right margin of the map for example ST 1 2 3 4

Your disposal area can then be easily located within that grid square.

Grid reference – ST 12 34

B2.3 Does the disposal area have a field number?

You may find the field number on an IACS map or an Ordnance Survey Landlines map, 1:1 250 or 1:2 500 scale.

No ☐ Don't know ☐

Yes ☒ please give the number

Note

Suitable disposal areas are those which do not pose a pollution risk to groundwater or surface water. They are likely to

- have established vegetation
 - be of low wildlife value
 - have a good depth of topsoil for example greater than 20cm (8inches)
 - be distant from streams and ditches at least 10m away

We need to know the drainage characteristics of the field and yard area to ensure that the disposal does not pose a threat to groundwater or surface water (for example ditches, streams).

You must also describe drainage arrangements if a yard area is used for activities like washing down equipment or a mobile dip or shower.

B3.8 How well does the soil drain?

- ☐ free draining – rainfall drains almost immediately
- ☒ moderately well draining – rainfall drains more slowly but does not 'pond'

Mapiau

B1.3 Rhowch fap o'r safle.

Mae angen y map hwn arnom i allu lleoli'r safle yn hawdd.

Noder

Ar gyfer map o'r safle, gallwch ddefnyddio atlas stryd neu ffordd, neu fap Arolwg Ordnans ar raddfa 1:50 000 neu 1:25 000. Mae'r mapiau hyn ar gael yn eich llyfrgell neu siop lyfrau leol.

Dylai'r map ddangos lleoliad y safle mewn perthynas â phentrefi, trefi neu dirnodau.

B2 Man gwaredu

Noder

Mae'n rhaid i chi gwblhau copi o Ran B ar gyfer pob man gwaredu yr ydych yn bwriadu ei ddefnyddio. Os byddwch yn gwneud cais i waredu sylweddau mewn mwy nag un man, cymrwch lungopiau o'r rhan cyn dechrau ei chwblhau. Un ffi fydd yn rhaid i chi ei thalu fel arfer ar gyfer prosesu cais. Fodd bynnag efallai bydd yn rhaid i chi dalu mwy nag un ffi os bydd eich cais am fwy nag un man gwaredu yn cynnwys llawer o waith ychwanegol i asesu'r risg i fannau gwahanol.

Os bydd angen mwy nag un ffi arnom, byddwn yn rhoi gwybod i chi cyn parhau â'r asesiad.

B2.1 Rhowch gynllun o bob man gwaredu ar y safle.

Dylai'r cynllun ddangos

- nodweddion dwr a thir – mae'r cwestiynau canlynol yn holi am y nodweddion hyn.

Noder

Ar gyfer y cynllun o'r man, gallech ddefnyddio mapiau Arolwg Ordnans ar raddfa 1:12 500 i 1:2 500 neu gopi o fap IACS.

Defnyddir y cynllun fel sylfaen ar gyfer awdurdodiad, felly mae'n rhaid iddo fod mor glir â phosibl.

Defnyddiwch y marciau a awgrymwyd yn y golofa isod. Bydd hyn yn gwneud nodweddion y safle yn gliriach ac yn ein helpu i wneud asesiad.

Nodweddion allweddol

Rydym yn awgrymu eich bod yn defnyddio'r marciau canlynol i nodi nodweddion eich tir yn y rhan hon.

graddfa: 20m

B2 Man gwaredu parhad

B2.2 Rhowch gyfeirnod grid cenedlaethol yr Arolwg Ordnans ar gyfery man gwaredu.

Nid yw cyfeirnod grid yr un peth â rhif cae.

Er enghraifft, ST 12 34

--	--	--

Noder

Sut i ddod o hyd i'ch cyfeirnod grid

Mae mapiau Arolwg Ordnans ar gael mewn siopau llyfrau a llyfrgelloedd.

I gyfrifo cyfeirnod grid eich man gwaredu i'r cilometr sgwâr agosaf
