WQ-B1	Please ensure the sampling point is appropriately labelled to be easily identified.	24/07/2026

Action criteria codes are listed in the 'Important information' section below.

3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

At this time, we do not intend to take any further action.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

Natural Resources Wales (NRW) officers conducted a planned inspection on Tuesday, 23 June 2026, as part of the Water Quality Permits Inspection Programme.

Officers were met on site by the permit holder and were shown the below-ground treatment system, which consists of a settlement tank and filter bed, discharging to a channel of Cefni Reservoir.

At the time of inspection, the system was operating effectively, and no visual issues were observed at the discharge point.

The permit authorises a daily discharge volume of up to 19 m³; however, as the site has not been developed as originally intended, the actual volume discharged is significantly lower.

Non-Compliance

In accordance with Condition 4 of the permit:

"An appropriately labelled sampling point shall be provided and maintained at National Grid Reference SH 43340 76860."

At the time of inspection, the sampling point was not labelled.

Action Required

Please ensure that the location of the sampling point is clearly identified and appropriately labelled.

Deadline

24 July 2026

If you have any queries about this report, or to discuss completion of any actions, please contact the NRW Officer named above.

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm to the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action required for the permit condition assessed to avoid non-compliance. No non-compliance scored at this time
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property
