This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

Thank you for your co-operation during the visit.

It was noted that the bricks and mortar that made up the wall surrounding the filter bed were showing signs of deterioration, but this was not a concern in terms of filter bed operation, or health and safety etc at present.

It was noted that there was a tendency for liquid to run towards the end of the filter bed arms.

Action: The filter bed arms needed slight adjustment to provide a more even distribution of liquid.

Timescale: Please carry out the above action and provide feedback by the 7th of August.

Thank you.
