WQ-C1	Efficacy Monitoring shortfall. 6 sampling shortfalls due to deviating data Improve monitoring and reporting	01/07/2026

Action criteria codes are listed in the 'Important information' section below.

3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

At this time, we do not intend to take any further action.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

The non-compliance listed above was identified during our annual 2025 data audit. This audit assessed Dŵr Cymru Welsh Water's compliance at all their sewage treatment works and water treatment works with Operator Self-Monitoring (OSM) conditions, UV conditions and Urban Waste Water conditions.

Please note: this CAR is dated 31/12/2025 as these non-compliances relate to annual 2025 data, however for clarity I carried out the compliance assessment on 14 May 2026

Correspondence received from DCWW 26/06/2026

'A number of sites have been deemed to have a shortfall in 2025 due to the addition of "deviating analysis" comments to samples where the bacteriological analysis was commenced outside of the 24-hour stability window.

To prevent a recurrence in 2026, we have made the decision to reschedule any samples that meet the same criteria. Please note that this means that some of the samples already submitted for Q1 of 2026 have had deviating analysis comments added, additional samples have been taken to replace these in the compliance assessments for each site.

going forward, any samples where the analytical stability window has been exceeded will now be cancelled, and additional samples taken to ensure that the required number of samples are taken, analysed and submitted in order to avoid a sampling shortfall in 2026.'

Closed and Verified 1 July 2026

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm to the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action required for the permit condition assessed to avoid non-compliance. No non-compliance scored at this time
