3.32 Environmental Monitoring Plan

3.32.1 The Licence Holder must submit an Environmental Monitoring Plan (EMP) including the specification of the Pre-construction, construction and Post construction Monitoring to the Licensing Authority for written approval. No Licensed Activities may be undertaken prior to written approval from the Licensing Authority.

The EMP must include, but not limited to, specification for:

- i. monitoring, including methodologies and timings;
- ii. physical and ecological pre- and post- construction monitoring surveys to take place across the construction area;
- iii. monitoring surveys designed to ensure minimal disturbance to, and loss of key benthic habitats and species during the construction including the identification of areas for micro-sitting where possible;
- iv. underwater noise monitoring to measure noise generated from piled foundations;
- v. ornithological monitoring plan, and
- vi. timetable for related reporting.

3.32.2 The Licence Holder must ensure that any actions outlined in the EMP detailed in condition 3.32.1 are implemented as approved in writing by the Licensing Authority. Any proposed changes to the actions outlined in the documents must be submitted to, and approved in writing by the Licensing Authority prior to any changes being enacted.

3.32.3 The pre-construction monitoring EMP required under condition 3.32.1 must be submitted to the Licensing Authority for written approval at least 4 months before surveys commence.

3.32.4 The construction monitoring EMP required under condition 3.32.1 must be submitted to the Licensing Authority for written approval at least 4 months prior to construction.

3.32.5 The post construction monitoring EMP required under condition 3.32.1 must be submitted to the Licensing Authority for written approval at least 4 months prior to operation of the Wind Turbine Generators.

3.32.6 The Licence Holder must submit environmental monitoring reports for approval to the Licensing Authority in accordance with the timetable approved within the EMP.
