Subject: [EXTERNAL] RE: Puma Energy Jetty Maintenance

Hi Richard

The activity should be fine as a Band 1 activity then. Please ensure you submit a method statement with the application, due to it being within a sensitive area and Pembrokeshire SAC.

Kind regards

Debbie

Subject: RE: Puma Energy Jetty Maintenance

Hi Debbie,

The works consist of grit blasting and painting, which is specifically mentioned in the Band 1 guidance.

Kind regards,

Richard Livock

Good afternoon,

Based on the location you've provided, the area is known as being a Band 1 sensitive area, (meaning that you would need to provide a Band 1 Low Risk Activities Method Statement with your application) and is within the Pembrokeshire SAC.

Please read [the Band 1 Low Risk Activities Guidance](#) to determine whether your works fall within this.

If the works don't fit within the Band 1 activities, then it's likely they'd be a Band 2, in which case you will need to submit a HRA and WFD assessment with your application.

If you can confirm the type of works that you're proposing to carry out, then I'd be able to advise on the best licence to apply for.

Kind regards,

Debbie

Dear Sir/ Madam,

Please could you contact me regarding marine licensing for maintenance work on Puma Energy's jetty (grid reference SM 88634 04619). In particular I would like to confirm whether a Band 1 application is appropriate and confirm designated/ sensitive area status.

Kind regards,

Richard Livock
