NRW Lead Officer: Rod Thomas, accompanied by: Gentle Lowe.

Report sent to: nial@rdwales.co.uk, Site Manager, on 10/07/2026.

1. Summary of our findings (full details in section 4)

Part of permitted activity assessed (criteria)	Assessment result	Non-compliant permit condition
WQ-C1 - Water Quality - Emissions and monitoring - Emissions to water	Assessed (A)	

Result types are explained in more detail in the 'Important Information' section below.

2. What action is required?

No action required.

3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

At this time, we do not intend to take any further action.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

On 15 October 2024, this site was inspected because it falls within the Pembrokeshire SAC rivers catchment and discharges an effluent volume above the threshold which requires a

phosphate limit by 2030 as explained in letter sent to The Valley Trecwn Ltd dated 28-08-2024.

The primary purpose of the visit was to sample the effluent for sanitary determinands including phosphate to get a baseline phosphate level.

The site looked in good working order, however the access to the sampling point was difficult and slippery and requires improvement. Please could the improvements to the access be carried out by end of 2024, and inform NRW when complete.

Correspondence received from the Operator confirmed the improvements to the sampling point access had been carried out during early December 2024.

The Operator continues to monitor the pathway access.

End
10 July 2026

If you have any queries about this report, or to discuss completion of any actions, please contact the NRW Officer named above.

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm to the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action required for the permit condition assessed to avoid non-compliance. No non-compliance scored at this time
