

FORM WRA: Applicant details and proposal outline

Application type and fee

Please generate a reference number. It should start with "WR" followed by your organisation or company name and today's date in four-digit format (DDMM) without spaces or punctuation.

Example: WRNATURALRESOURCESWALES1101

Please use this use this number throughout this application. This reference number can also be used for your BACS reference if paying electronically.

WRNBHYDRO08072026

For the application types listed, complete this form and/or the relevant additional forms named below. Tick the type of application you are applying for. Please refer to our Find out if you need a licence web-page (opens in new tab) for an explanation for the different licence types. If your proposal involves multiple licence types, tick all that apply.

See our Charges for abstraction and impoundment applications (opens in new tab) web page for details of application fees and how to pay.

New full abstraction licence. Also complete form WRD.

New impoundment licence. Also complete form WRE.

Please provide existing licence serial number, if applicable

WA/064/0003/004/V001 and WA/064/0003/005/V001 were the previous abstraction and impoundment licences

Please indicate how you wish to pay your application fee. If paying by BACS, please quote the reference number created in question 1 when setting up the bank transfer.

If paying by cheque, please ensure you add the six digit cheque number below.

BACS

Please add your BACS reference below

Entitlement to apply (not required for impoundment licence applications)

Does the applicant have a legal right of access to the point of abstraction?

Owner

Site map showing abstraction points

- File: Bryn Cemlyn Location Plan.png - [Download](#)

For abstraction licence applications where you are the landowner, provide a map with the land boundary and all abstraction and discharge point(s) marked.

Please tick here to show that you have done this.

Pre-application number

Have you undertaken a pre-application enquiry or had any previous discussions with us?

Yes

Provide reference number or staff member's name

This is a reapplication for an existing scheme due to the old licences being receded due to the death of the licence holder, Mr Bromley Davenport. Discussions have been ongoing between Eirian Davenport and Sioned Wyn Jones of NRW

Remediation work

Is this proposal as a result of a Restoring Sustainable Abstraction programme or other work requested by us?

No

Source of supply

State where you intend to abstract from

Surface Water. e.g. Stream, leat, spring

Provide a 12 digit National Grid Reference for the proposed or existing abstraction or impoundment point (e.g. ST 19057 76826)

SH 72827 22779

Source of supply (name of watercourse or aquifer)

Un named tributary of the Afon Mawddach

Site name / reference
(e.g. Tŷ Mawr Farm)

Bryn Cemlyn Hydro

Proposal summary

Please provide an outline of your proposal, including any sketches.

As a guide, you should include: a description of the activities which (will) take place at your site, the means of abstraction/impoundment proposed, if the proposal is related to another licence or permit (i.e. an Environmental Permit to Discharge Water) and details of any survey work undertaken. For changes to existing licences, summarise the changes proposed. Sketches or photographs that will aid our understanding of your proposal can be uploaded below.

This is an application for an existing hydro scheme, Bryn Cemlyn Hydro, which was licenced originally in 2013 and subsequently the licence had a variation which was issued on 20/11/2017. The abstraction Licence was WA/064/0003/004/V001 and impoundment licence was WA/064/0003/005/V001. The licence holder was Mr Hywel Bromley Davenport. He died in 2021. The family did not know that NRW had to be notified within 15 months of the death in order for the existing licences to be retained therefore they did not transfer the licence and it was then deemed to have expired and NRW order the owners to cease operation. The scheme has not therefore been operational since May 2025.

It is understood that new abstraction and impoundment licences can therefore be granted on the same terms as the previous licence and the existing scheme. This is the application for those new licences. The scheme involves an intake at SH 72827 22779, a pipeline installed inside a cast iron pipe from a previous larger hydro scheme, a powerhouse and outfall at SH 72966 22897.

Declaration

By signing below, you are declaring that, to the best of your knowledge; the information given in this form, on any map and in any supporting or additional information; is true.
