Type of assessment carried out: Audit,

Reason: Other.

On 10/07/2026, between 10:00 and 10:45.

Parts of permit assessed: Reporting and Monitoring conditions

NRW Lead Officer: Simon Shorten.

Report sent to: Cars Mailbox, Cars Mailbox, on 23/07/2026.

1. Summary of our findings (full details in section 4)

Part of permitted activity assessed (criteria)	Assessment result	Non-compliant permit condition
WQ-C1 - Water Quality - Emissions and monitoring - Emissions to water	Action only (X)	

Result types are explained in more detail in the 'Important Information' section below.

2. What action is required?

Criteria	Action needed	Complete by
WQ-C1	Change pipework on pump number 2. 1 of 2 pumps awaiting repair	31/08/2026

Action criteria codes are listed in the 'Important information' section below.

3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

At this time, we do not intend to take any further action.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

Site was visited 10 July 2026.

Pipework on pump number 2 is awaiting repair.

The permit has an overflow setting of 34.27 l/s. 25.09 l/s was observed during the visit.

Information from DCWW received in August 2025 indicated the following

A review of the available flow data indicates that the asset may not be achieving the required flow rate of 34.27 l/s. As the monitoring equipment in place is not MCERTS-certified, the accuracy of the flow data cannot be fully assured. As outlined in GN066, the asset is scheduled for investigation and assessment during AMP8 to determine its compliance with FPF requirements. This future assessment will provide clarity on whether the asset can meet the necessary standards.

This CAR will remain open until the repairs have been completed.

Deadline for response 31 August 2026

If you have any queries about this report, or to discuss completion of any actions, please contact the NRW Officer named above.

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm to the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action required for the permit condition assessed to avoid non-compliance. No non-compliance scored at this time
