Section 1 – Compliance Assessment Summary

This is based on the requirements of the permit under the Environmental Permitting Regulations or the licence under the Water Resources Act 1991 as amended by the Water Act 2003. A detailed explanation is captured in "Compliance Assessment Report Detail" (Section 2) and any actions you may need to take are given in the "Action(s)" (section 4). This summary details where we believe any non-compliance with the permit has occurred, the relevant condition and how the non-compliance has been categorised using our Compliance Classification Scheme (CCS). CCS Scores can be consolidated or suspended where appropriate, to reflect the impact of some non-compliances more accurately. For more details of our CCS scheme, contact your local office.

Commins Coch CSO and Pumping station was audited on the 15th November 2018 by Natural Resources Wales officers.

Inspection - The pumping station was observed to be well operated with no non-compliances being identified. Unable to observe the discharge point due to health and safety, on a steep bank covered with fir trees.

G1 - notified that monitoring is undertaken by external company to identify drop in pressure, this alerts DCWW to investigate.

Thank you for your time during this visit.
