Result types are explained in more detail in the 'Important Information' section below.

2. What action is required?

Criteria	Action needed	Complete by
WR-E1	Vary the licence to state what is currently installed (3mm eel screens).	30/09/2026

Action criteria codes are listed in the 'Important Information' section below.

3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution or civil sanctions being imposed depending on the circumstances of the offence.

At this time, we do not intend to take any further action.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

A site visit was carried out on the 8th July 2026 to the abstraction that takes place from the River Dee at Twll near Bangor-on-Dee, under licence 24/67/7/0220. Hafren Dyfrdwy are licensed to abstract water from the River Dee at Sesswick or Twll in accordance with this licence and licence WA/067/0007/0016.

Condition 7(i) of this licence (24/67/7/0220) allows a maximum quantity of 37.52 MI/d to be abstracted. Condition 7(ii) allows an additional 6.819 ML/d to be abstracted, subject to condition 10(c). This gives a maximum of 44.34MI/d. Licence WA/067/0007/0016 allows a further 8 MI/d abstraction to take place.

Condition 10(c) of the licence states that no abstraction shall be made under condition 7(ii) of the licence when the predicted flow at Eccleston Ferry is less than 13.07 cumecs. Therefore, the quantity of water to be abstracted by licence 24/67/7/0220 during this period was 37.52 MI/d. In addition to this, a further 8 MI/d is licensed to be abstracted by licence WA/067/0007/0016. This gives a total combined abstraction of 45.52 MI/d.

Hafren Dyfrdwy provided abstraction quantities from the 29/06-08/07/26 which all appear to be within the daily limits. See data below:

08:20	29/06/2026	43.83
08:05	30/06/2026	43.63
08:20	01/07/2026	37.73
08:10	02/07/2026	32.88

08:00	03/07/2026	38.64
08:35	04/07/2026	35.20
06:30	05/07/2026	33.94
08:15	06/07/2026	39.07
08:23	07/07/2026	40.82
09:00	08/07/2026	39.68

Condition 10.6 stipulates: The licence holder shall install and maintain fish screening arrangements on the intake to the satisfaction of the Agency. The Screening arrangements will comprise inclined 50 millimetre spaced track rack bars, a 6 x 6 millimetre punched stainless steel mesh bandscreen and a backwash return chute.

However, it was confirmed that 3mm eel screens had been installed and formed the current set up. The licence will need to be varied to match what is currently installed. This would be a technical variation. Please refer to this link for more information: [Natural Resources Wales / Apply to renew or change an existing abstraction or impoundment licence](#).

Important information

Legal status of this report

Your licence is issued to you under the Water Resources Act 1991 as amended by the Water Act 2003. You have a responsibility to comply with the conditions of your licence and prevent pollution/harm to the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action required for the licence condition assessed to avoid non-compliance. No non-compliance scored at this time
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property
