Report sent to: Arwyn Evans, Sam Higgitt, Director, Environment Manager , on 10/08/2026.

1. Summary of our findings (full details in section 4)

Part of permitted activity assessed (compliance criteria)	Assessment result	Permit condition
W1A - Waste - Management - General management	C2 Significant	1.2.1

Result types are explained in more detail in the 'Important Information' section below.

Total non-compliances recorded	Total non-compliance score
1	31

How we use the non-compliance score to calculate your annual fee is explained in the 'Important Information' section below.

2. What action is required?

Criteria	Action needed	Complete by
W1A	Provide evidence of financial provision as per the agreement dated 5th September 2025. Please include in your response, evidence to show that the bond (due to expire on 31st August 2026) has been renewed or provide evidence of alternative financial provision.	14/08/2026

Compliance criteria codes are listed in the 'Important information' section below.

3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

You are non-compliant with your permit.

We are currently considering taking enforcement action against you for the non-compliance recorded above. We will contact you in due course.

4. Details of our assessment

Permit condition 1.2.1 states *"The financial provision for meeting the obligations under this permit set out in the agreement made between the operator and Natural Resources Wales dated 5th September 2025 shall be maintained by the operator throughout the subsistence of this permit and the operator shall produce evidence of such provision whenever required by Natural Resources Wales"*.

Permit condition 1.2.2 states *"The financial provision provided under condition 1.2.1 above shall thereafter be maintained by the operator throughout the subsistence of the permit and the Operator shall produce evidence of such provision whenever required by Natural Resources Wales"*.

The performance agreement dated 5th September 2025, requires that the bond should be renewed 1 month prior to its expiry (section 2.2 of the agreement). The current bond is due to expire on 31st August 2026.

Natural Resources Wales finance team has written to the operator requesting that the bond is renewed as per the agreement, but this has not been completed.

Failure to renew the existing Bond 1 month before its expiry is a breach of the Performance Agreement and means that Natural Resources Wales (NRW) can call upon the Bonded Sum. This breach of a permit condition may lead to enforcement proceedings by NRW including a suspension or partial revocation of your permit.

Failure to maintain financial provision means that the operator may not be able to sufficiently meet the obligations of the permit such as monitoring, aftercare or any environmental incidents that occur from site. No evidence of financial provision has been provided to NRW as per the above permit conditions. **This presents significant risk to the environment and therefore a CCS C2 score has been applied for this permit breach against permit condition 1.2.1. Whilst there are breaches to both permit conditions 1.2.1 and 1.2.2, this has been consolidated into one score as this relates to the same issue.**

ACTION: Renew the bond as per the agreement dated 5th September 2025 and submit evidence to NRW to show this has been completed.

If you have any queries about this report, or to discuss completion of any actions, please contact the NRW Officer named above.

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm of the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action required for the permit condition assessed to avoid non-compliance. No non-compliance scored at this time
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description	Score
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property	60
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property	31
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property	4
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property	0.1

How we use assessment scores

The number and severity of non-compliances recorded in a year will affect your annual subsistence fee the following year. A non-compliance factor is added to your site's Operator Performance Risk Appraisal (OPRA) score when we calculate your fee to reflect the additional resource we use to assess permit compliance.

If your assessment result in Section 1 is suspended, what does this mean?

In line with our guidance, we may suspend scores for up to six months to allow time for remedial action to be taken. Suspended scores will be re-instated if the action is not completed.
