2. What action is required?

No action required.

3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution or civil sanctions being imposed depending on the circumstances of the offence.

At this time, we do not intend to take any further action.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

I (Environment Officer Gavin Dodd) arrived at Trefil Quarry, Tredegar, Gwent at 12:30 on 10th August 2026 to conduct an inspection regarding a licence to abstract water (licence ref WA/056/0038/0004). Quarry Manager Stuart Inch was also in attendance. The weather during the visit was dry and sunny.

The source of supply for the abstraction is underground strata comprising of Dowlais Limestone Formation, with the means of abstraction being a pump for the purposes of dewatering and dust suppression. While abstraction was not taking place during the inspection, the grid reference for the abstraction point was accurate to that specified in the licence.

From the point of abstraction, water was pumped to a settling pond for the purposes of dewatering and a holding tank (used to fill a bowser); two meters were in use for each of these purposes. The settling pond did not have any water present due to recent drought conditions. Abstracted water was also not being returned due to no abstraction taking place, but again the point of return to the Nant Trefil was accurate to that specified in the permit.

Shortly after the visit, abstraction returns data was submitted and no issues were found with this.

No breaches were identified during the inspection

Important information

Legal status of this report

Your licence is issued to you under the Water Resources Act 1991 as amended by the Water Act 2003. You have a responsibility to comply with the conditions of your licence and prevent pollution/harm to the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action required for the licence condition assessed to avoid non-compliance. No non-compliance scored at this time
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property
