

Annual Statement of Soil Movement to End Use

Reporting Period: 2025

Prepared by: Mr. Gavin R Powell, Neal Soil Suppliers Limited

Date: Jan/2025

1. Introduction

This document records the annual movement of soils from Neal Soil Suppliers Limited to Croes-Carn-Einon Farm. The soils referred to herein were originally classified as waste under the Environmental Permitting (England and Wales) Regulations 2016. However, following appropriate treatment, testing, and assessment, the soils have achieved non-waste status in line with the requirements of the Waste Framework Directive (2008/98/EC) and the relevant End of Waste principles.

This report provides a transparent account of the volumes, destinations, and intended uses of the soils moved during the reporting period.

2. Material Description

- Material Type: Treated soils / recovered soils
- Source: Neal Soil Suppliers Limited, Newton Road, Cardiff, CF3 2EJ
- Process Undertaken: Washing & Screening in line with Permit EPR/VP3095FS
- Compliance: Soils assessed and confirmed to meet the requirements for the end user.
- Waste Status: Confirmed non-waste following treatment and verification testing.

3. Movement Records

Summary of annual movements:

Date of Dispatch	Quantity (tonnes / m ³)	Destination Site	End Use	Verification Reference
2025	TBC	Croes-Carn-Einon Farm, Holly Lane, Rhiwderin, Newport, NP10 8RR	Landfill Restoration	As approved testing

4. Justification (End Use)

The soils have been dispatched for legitimate use in the restoration of the landfill in line with the planning consent. The receiving sites are suitable for the placement of soil and have confirmed acceptance for non-waste materials. No disposal or recovery activity under an environmental permit has taken place, as the soil is no longer classified as waste.

6. Declaration

I confirm that the information contained within this report is accurate and that all soils moved during the reporting period have been assessed, verified, and dispatched as non-waste materials for appropriate end use.
