Action criteria codes are listed in the 'Important information' section below.

3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

At this time, we do not intend to take any further action.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

Compliance inspection at Weycock SPS BB3798HP. Undertaken by Environment Officer Harry Warburton, accompanied by DCWW. Weather at the time was drought.

Weycock SPS was previously a treatment works, however is now a pumping station that passes flows forward to Cog Moors at a maximum rate of 27l/s before a storm discharge occurs. The site also contains a wet well with a permitted storage capacity of 37m³. There is a screen present in the wet well prior to a discharge to the environment, which is a shared storm and emergency outfall.

The effluent in the wet well had a layer of crust and litter on the surface. This may require a wet well clean to remove. This is done yearly and done a few months prior to the inspection. This schedule should be reviewed due to the build up of the crust in the wet well.

The outfall to the environment discharges to the River Weycock when a spill occurs. This area was observed and there was evidence of fungus on the riverbed below the outfall. This will require investigation of the spill data.

Actions:

- Provide the sites EDM spill data and the flow passed forward volumes from the 1st of April to the 19th of August
- Review the cleaning schedule of the wet well

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm to the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):
