

Table of Contents

1. General Considerations

1.1 Specified Waste Management Operation.....	1
1.1.1 Waste Management Operations.....	2
1.2 Permitted Wastes.....	4
1.2.1 Maximum Capacity of Site.....	4
1.2.2 Exclusion of Wastes with other Specified Characteristics.....	8
1.3 Hours of Operations.....	8
1.4 Staffing and Understanding of requirements of licensing conditions and working plan.....	9
1.4.1 On Site Operational Staff.....	9
1.4.2 Site Management.....	10
1.5 Changes in Technically Competent Persons.....	11
1.6 Communication.....	11
1.7 Emergency Action Plan.....	11

2. Site Engineering for Pollution Prevention and Control

2.1 Engineering Surveys.....	1
2.2 Engineered Landfill containment System for solid and liquid wastes.....	1
2.2.1 Conceptual Engineering Design.....	1
2.2.2 Basal Engineering.....	3
2.2.3 Basal Drainage.....	4
2.2.4 Geomembrane Liner Specification and Construction Quality Assurance.....	6
2.3 Leachate Management Systems.....	7
2.3.1 Maximum Permitted Leachate Level.....	7
2.3.2 Basal Drainage.....	7
2.3.3 Leachate Monitoring and Extraction Wells.....	9
2.3.4 Leachate System Maintenance Program.....	9
2.3.5 Construction Quality Assurance of Additional Leachate management System.....	9
2.3.6 Specification for Leachate Holding Tank.....	10
2.3.7 Specification for Leachate Draining Materials and Pipework.....	10
2.3.7.1 Leachate Draining Materials.....	10
2.3.7.2 Specification for Leachate Draining Materials.....	11
2.3.8 Installation, Inspection, Maintenance and repair of Leachate Monitoring Points.....	12
2.4 Construction Quality Assurance.....	12
2.5 Landfill Gas Management Systems.....	13
2.5.1 Conceptual Design.....	13
2.5.1.1 Well Design.....	14
2.5.1.2 Carrier Pipework and Fittings.....	15
2.5.1.3 Operation, Maintenance and review of Landfill Gas Management System.....	15
2.5.1.4 Action Plan for failure of or damage to components of the Landfill Gas Flare.....	16
2.5.1.5 Power Generation and Flare Stack.....	16
2.6 Drilling Logs.....	16

2.7 Pipe Jointing.....	17
2.8 Pressure Testing.....	17
2.9 Commissioning.....	17
2.10 Engineered Surface Water Management Systems.....	17
2.10.1 Operational Surface Water Management Systems.....	17
2.10.2 Restored Surface Water Management Systems.....	19
2.10.3 Modifications to the Surface Water Management Systems.....	19
2.10.4 Inspection of the Surface Water Management Systems.....	20
2.10.5 Discharge to the Nant-y-Gwyddon Stream.....	20
2.10.6 Record keeping.....	21
2.11 Installation, Maintenance and Protection of Final Capping.....	21
2.11.1 Settlement.....	21
2.11.2 Capping.....	21
2.12 Inert Bund.....	23

3. Site Infrastructure

3.1 Provision of Site Identification Board.....	1
3.2 Site Security.....	2
3.2.1 Security Provisions and Maintenance.....	2
3.2.2 Visitors.....	3
3.3 Security of Buildings and Property.....	3
3.3.1 Buildings.....	3
3.3.2 Vehicles and Mobile Plant.....	3

4. Site Operations

4.1 Control of Mud and Debris.....	1
4.2 Potentially Polluting Leaks and Spillages of waste.....	1
4.3 Fires on the Site.....	2
4.4 Waste Acceptance and Control Procedures.....	3
4.4.1 Load Checking in Procedures.....	4
4.4.2 Unauthorised Waste.....	5
4.5 Weighbridge.....	7
4.6 Waste Quality and Measurement System.....	8
4.7 Waste Placement Procedures-Landfill Operations.....	9
4.8 Use of Cover Materials.....	11
4.8.1 Daily Cover.....	11
4.8.2 Intermediate Cover.....	11
4.9 Plant Equipment and Communication.....	12
4.9.1 General.....	12
4.9.2 Plant Inspections.....	12
4.9.3 Site Equipment Schedule.....	13
4.9.4 Machine Breakdown.....	13
4.9.5 Site Communications.....	13

5. Pollution Control, Monitoring and Reporting

5.1 Introduction.....	1
5.2 Monitoring and balancing of Landfill Gas Extraction System.....	2
5.2.1 Provision of Landfill Gas Monitoring System.....	2
5.2.2 Design Report on Gas Extraction Monitoring Installation.....	2
5.2.3 Design and Operational Standards for Landfill Gas Extraction Monitoring System.....	3
5.2.4 Landfill Gas Monitoring Programme.....	4
5.3 Monitoring and Reporting of Emissions from Landfill Gas Flares.....	4
5.3.1 Quality Assurance Plan for Monitoring of Flare Emissions.....	4
5.3.2 Emissions Monitoring and Sampling Programme.....	5
5.3.3 Emissions Monitoring Action Plan.....	6
5.4 Monitoring and Control of Landfill Gas utilisation Systems and alternative methods of Disposal.....	7
5.5 Landfill Gas Monitoring and Reporting External to the Waste.....	7
5.5.1 Provision of External Landfill Gas Monitoring System.....	7
5.5.2 Design Report on Landfill Gas Monitoring System.....	7
5.5.3 Design and Operational Standards for External Landfill Gas Monitoring System.....	8
5.5.4 External Landfill Gas Monitoring and Sampling Programme.....	9
5.5.5 Baseline Monitoring Results.....	9
5.5.6 Monitoring and Sampling Results.....	10
5.5.7 Emissions Monitoring Plan.....	10
5.6 Perimeter and Surface Monitoring of Hydrogen Sulphide within licensed area.....	11
5.6.1 Provision of Hydrogen Sulphide Monitoring System.....	11
5.6.2 Hydrogen Sulphide Monitoring and sampling Programme.....	12
5.6.3 Monitoring and sampling Records.....	12
5.6.4 Hydrogen Sulphide Monitoring Action Plan.....	12
5.7 Community Hydrogen Sulphide Monitoring Procedures.....	13
5.7.1 Provision of Hydrogen Sulphide Community Monitoring System.....	13
5.8 Weather Monitoring.....	13
5.8.1 Provision of Weather Monitoring System.....	13
5.8.2 Weather Monitoring and Recording Programme.....	13
5.8.3 Weather Monitoring Action Plan.....	14
5.9 Leachate Monitoring and Reporting.....	14
5.9.1 Leachate Monitoring and Sampling System.....	14
5.9.2 Leachate Monitoring and Sampling Programme.....	14
5.9.3 Leachate Monitoring and Sampling Records.....	17
5.9.4 Leachate Generation Action Plan.....	17
5.10 Groundwater Monitoring and Reporting system.....	18
5.10.1 Provision of Engineered Groundwater Monitoring System.....	18
5.10.2 The Engineered External Groundwater Monitoring System.....	18
5.10.3 Groundwater Monitoring and Sampling Programme.....	19
5.10.4 Groundwater Monitoring and Sampling Records.....	21
5.10.5 Groundwater Monitoring Action Plan.....	21

5.10.6 Investigation Procedure and follow up.....	21
5.10.7 Reference Elevation for Groundwater Monitoring Point.....	22
5.11 Surface Water Monitoring and Reporting.....	23
5.11.1 Provision of Surface Water Monitoring System.....	23
5.11.2 Surface Water discharge from Surface Water Settlement Lagoons.....	23
5.11.3 Surface Water and Sampling Programme.....	23
5.11.4 Surface Water and Sampling Records.....	25
5.11.5 Surface Water Monitoring Action Plan.....	25

6. Amenity Management and Reporting

6.1 Control, Monitoring and Reporting of dust, fibres and particulate.....	1
6.1.1 On-Site and Off-Site Access Roads.....	1
6.1.2 Control of dust on the Waste Mass.....	1
6.2 Control of Odours.....	2
6.2.1 Odour Control.....	2
6.3 Control of Pests.....	3
6.4 Control of Birds and other Scavengers.....	3
6.5 Control of Litter.....	4

List of Tables

- Table 1 Specified Waste Management Operations**
- Table 2 Permitted Waste Categories**
- Table 3 Excluded Wastes of Specified Characteristics**
- Table 4 COTC Holders**
- Table 5 Monitoring Schedule for Inert Bund**
- Table 6 Schedule for Internal Landfill Gas Monitoring**
- Table 7 Landfill Flare Emissions Monitoring Programme: Standards and Determinants**
- Table 8 Standards for External Landfill Gas Monitoring and Sampling Programme**
- Table 9 Meteorological Parameters**
- Table 10 Leachate Monitoring: Sampling and determinants**
- Table 11 Groundwater Monitoring: Sampling and determinants**
- Table 12 Surface Water Monitoring: Sampling and determinants**

List of Drawings

- Drawing 1 Site Location Plan**
- Drawing 2 Site Licence Boundary**
- Drawing 3 Site Layout and Phasing**
- Drawing 4 Leachate Monitoring Locations**
- Drawing 5 Groundwater Monitoring Locations**
- Drawing 6 Surface Water Monitoring Locations**
- Drawing 7 Gas Monitoring Locations**
- Drawing 8 Capping and Restoration details**

Drawing 9 Pre-Settlement Restoration Profile

Drawing 10 Post Settlement Restoration Profile

Drawing 11 Typical Gas Extraction Detail

Drawing 12 Discharge Consent Points

Drawing 13 Air Quality Monitoring Site and Community Stations

Drawing 14 Air Quality Monitoring Nant Y Gwyddon Site Walk Over Plan

Volume 2

List of Appendices

- Appendix 1 Waste Management Licence Nant Y Gwyddon**
- Appendix 2 Greater Manchester Waste Regulation Authority Guidelines on Contaminated Soils and Materials**
- Appendix 3 Environmental Agency Guidelines on Contaminated Soils**
- Appendix 4 Special Waste Classification Guidelines**
- Appendix 5 COTC Holder Certification**
- Appendix 6 Procedures for Changes in the Working Plan**
- Appendix 7 Risk Assessment and Site Management**
- Appendix 8 Company Safety Policy**
- Appendix 9 Environmental Monitoring Procedure**
- Appendix 10 Monitoring Borehole Logs**
- Appendix 11 Planning Application Plans**
- Appendix 12 Leachate Management Program**
- Appendix 13 Air Quality Monitoring Program**
- Appendix 14 Amgen Organogram**
- Appendix 15 Flare Specifications**
- Appendix 16 Waste Specifications, Draft XVI**
- Appendix 17 Amgen: Policies, Rules and Procedures (Fire)**
