

10/CAM/1

OUTGOING

PERMIT

ENVIRONMENTAL PROTECTION ACT 1990

PART II

NO. L1/SWN/147

WASTE MANAGEMENT LICENCE

THE SWANSEA CITY COUNCIL in pursuance of the powers conferred on them by the Environmental Protection Act 1990, hereby licence:

SWANSEA CITY WASTE DISPOSAL COMPANY LIMITED

(hereinafter called the licence holder)

Address: Ferryboat Close,
Enterprise Zone,
Swansea,
SA6 8QN

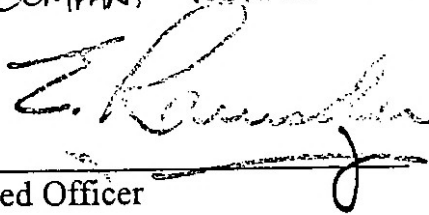

Location of site to which this licence relates:

CRYMLYN CIVIC AMENITY SITE, DINAM ROAD, CRYMLYN.

Type of waste: **GENERAL HOUSEHOLD WASTE**

This licence is granted subject to the conditions set out in the following schedules.

Date of issue: *COMPANY VESTING DATE* **30th March 1996**

Signed: 

Authorised Officer

The licence holder's attention is drawn to the notes overleaf.

EPA90.WML/EE/PC/AKB1439

NOTES

THESE NOTES ARE FOR GENERAL GUIDANCE ONLY AND DO NOT CONSTITUTE AN AUTHORITATIVE STATEMENT OF THE LAW.

1. This licence relates only to the requirements of the Environmental Protection Act 1990 for the deposit of waste and the use of plant or equipment subject to the conditions set out in the schedules and does not constitute a consent required by other legislation. In particular, it is the responsibility of the licence holder to comply with any requirements of the HEALTH AND SAFETY AT WORK ACT 1974, the RADIOACTIVE SUBSTANCES ACT 1960, the TOWN AND COUNTRY PLANNING ACTS, BUILDING REGULATIONS, and ALL RELEVANT WATER PROTECTION and ENVIRONMENTAL HEALTH legislation.

CONTRAVENTION OF LICENCE CONDITIONS

Your attention is drawn to the provisions of Sections 33, 42 and 59 of the Environmental Protection Act 1990. A brief resume is included below.

Section 33

Prohibits under penalty the deposit of waste and the use of plant or equipment, otherwise than in accordance with the terms of the licence. This section applies to all the conditions contained herein, including any which may be the subject of an appeal to the Secretary of State under Section 43 of the Act. Any deposit which takes place without compliance with all the conditions attached to this licence may lead to prosecution under this section.

Section 42

Non-compliance with any licence conditions may lead to the suspension or revocation of the licence.

Section 59

The licensing authority is empowered to require the removal of waste deposited in circumstances where any of the conditions of this licence are not being complied with.

SCHEDULE A - DEFINITIONS

The following meanings shall apply throughout this licence:

1. **WORKING PLAN** shall mean the operational documentation prepared by the site operator.
2. **THE ACT** shall mean the Environmental Protection Act 1990.
3. **WASTE REGULATION** shall have the meaning assigned to it in Section 30 of the Environmental Protection Act 1990.
4. **DULY AUTHORISED OFFICER** shall mean any person authorised in writing by the Regulation Authority pursuant to Section 68 of the Environmental Protection Act 1990.
5. **LICENCE HOLDER** shall mean the person or persons to whom this licence is granted.
6. **BIODEGRADABLE** shall mean material which may be broken down by the action of micro organisms..
7. **INERT WASTE** shall mean solid or granular materials, free from any noxious, poisonous or polluting substance, which does not decompose or for which the environmental impact of decomposition is less than, or comparable with, that of topsoil and is virtually insoluble in water.
8. **EMERGENCY** shall mean a case where a person has reasonable cause to believe that circumstances exist which are likely to endanger life or health or cause damage to property or pollution of water.
9. **OPERATING** shall mean the deposit of waste or the acceptance of waste for deposit and all matters incidental thereto.
10. **SPECIAL WASTE** shall have the meaning assigned to it in Section 2(1) of the Control of Pollution (Special Waste) Regulations 1980.
11. **FLAMMABLE** shall have the meaning assigned to it in Schedule 1, Part 1 of the Classification, Packaging and Labelling of Dangerous Substances Act 1984.
12. Notwithstanding the above, words and phrases in this licence shall have the meaning ascribed to them by the Environmental Protection Act 1990 and its associated regulations.

SCHEDULE B - SITE PREPARATION

1. The preparatory works required by conditions 2 to 12 below shall be supervised and certified by an appropriately qualified person, that they have been constructed in accordance with the working plan.

Site Infrastructure

2. Perimeter fencing and gates shall be provided and maintained at all times in accordance with the working plan. The gates shall be securely locked at all times when the facility is unattended. Any damage to the gates and fencing which impairs their effectiveness will be repaired by the end of the working day and if this cannot be accomplished the licence holder shall provide security personnel to guard the facility until such repair is effected.
3. An identification board of durable material and finish shall be displayed at the entrance to the facility at the location specified in the working plan.
The following information shall be provided.
 - a) Name and licence number of the facility,
 - b) 24 hour emergency telephone number and contact,
 - c) Name, address and telephone number of the waste regulation authority,
 - d) Hours of operation, and
 - e) Name of licence holder.The board shall be maintained in a legible condition at all times.
4. A site control office of the type specified in the working plan shall be provided at the site, and shall be maintained to its original specified standard.
5. Site surfacing shall be maintained to its original specified standard.
6. Site drainage facilities shall be constructed in accordance with the working plan so that water does not accumulate at the facility.
7. Provisions for the storage and maintenance of plant shall be constructed in accordance with the working plan and shall be maintained to the original specified standard.
8. Artificial lighting shall be provided for those operations which are to be carried out during the hours of darkness, at the locations specified and as specified in the working plan.
9. Storage containers for liquids shall be bunded or double-skinned to prevent contamination of surface water. The containers shall be of a type and construction suitable for the liquids which they contain, and labelled to show their contents.
10. Provision shall be made within the confines of the site for the parking, loading and unloading of vehicles transporting wastes to and from the facility in accordance with the working plan.

Schedule B - Continued.

Emergency Measures

11. Emergency procedures as detailed in the working plan will be adopted in order to prevent the emission of hazardous material from the site.
12. The emergency procedures detailed in the working plan shall be reviewed at six monthly intervals and shall also be updated whenever necessary to take account of changes in personnel or other circumstances. Any updated information shall be forwarded to the waste regulation authority.

SCHEDULE C - TYPES OF WASTE

Permitted Waste

1. The types of waste acceptable at the facility shall consist only of the following:

<u>Waste</u>	<u>Location</u>
Household Waste	Compactors/Skips (Only to available capacity)

Excluded Waste

2. Notwithstanding the generality of the types of waste specified in this Schedule, the following wastes shall be specifically excluded from the facility:
 - a) Waste being defined as 'special waste', except motor vehicle batteries and liquefied petroleum gas bottles.
 - b) Substances within the Control of Radioactive Substances Act 1960 and any subsequent amendments.
 - c) Percussives and explosives and other substances with similar characteristics, except where such wastes are in such a form or state where the percussive or explosive properties are and will remain ineffective.

SCHEDULE D - OPERATIONS

1. The licence holder shall operate the facility in accordance with the working plan as agreed by the Waste Regulation Authority.
2. Any proposed modification to the working plan shall be submitted to the Waste Regulation Authority together with the proposed date of implementation at least 4 weeks before the proposed date of such implementation.
3. The licence holder shall obtain written agreement of the Waste Regulation Authority for any proposed modification to the actual conduct of the operations from the proposals agreed in the working plan.
4. The types of waste accepted at the facility shall consist of those specified in Schedule C of this licence. All wastes shall be visually inspected so far as is possible to ensure that they conform with the requirements of Schedule C of this licence. Any wastes not conforming to the requirements of Schedule C shall be rejected as unsuitable for disposal at the facility.
5. Each container used for storage shall be of sound physical condition and marked where necessary with the waste type title. Wastes shall be stored according to waste type in the segregated storage areas as detailed in the working plan.
6. The facility shall be manned and supervised during operating hours (see condition 7 below) in accordance with the working plan. Supervisors must be able to identify the types of waste permitted by this licence and those wastes specifically excluded.
7. Permitted wastes shall be delivered to and removed from the facility between the hours specified below. Except in cases of emergency, no delivery or removal of waste shall take place outside these hours without the prior approval of the Waste Regulation Authority. All circumstances of emergency movement of such wastes shall be reported forthwith in writing to the Waste Regulation Authority.

Each day	From :	8.00 a.m.
	to :	8.00 p.m.
8. No waste material shall be burned within the boundaries of the facility. Any outbreak of fire shall be regarded as an emergency and immediate action shall be taken to extinguish it. Fire fighting equipment and emergency water supplies shall be provided, maintained and identified in accordance with the working plan. All outbreaks of fire shall be reported immediately to the Fire Brigade and the Waste Regulation Authority.
9. In the event of an emergency, the appropriate procedure specified in the working plan shall be implemented. The Waste Regulation Authority shall be informed forthwith of any emergency. The circumstances of an emergency shall be confirmed to the Waste Regulation Authority in writing as soon as is practicable.

Schedule D - Continued.

10. Measures in accordance with the working plan shall be taken to remove any mud, debris or other material that is deposited on the site surface by vehicles using the facility.
11. Measures in accordance with the working plan shall be taken to prevent damage to pipework, valves, pumps and storage tanks which may cause pollution of water, danger to public health, or would be deemed to be seriously detrimental to the amenities of the locality.
12. Any loose waste on or around the facility shall be collected on a regular basis and disposed of in accordance with the working plan.
13. Not less frequently than once a week, any litter within the immediate vicinity of the facility shall be collected and disposed of in accordance with the working plan.
14. Any spillage shall be dealt with immediately to prevent water pollution. Quantities of sand/absorbent material shall be kept at the facility as detailed in the working plan and used on all appropriate spillages.
15. Measures, including proper maintenance and use, shall be undertaken to control the noise of machinery and vehicles operating at the facility which may be detrimental to the amenities of the locality.
16. Any cessation of operations for a period in excess of 14 days shall be notified to the Waste Regulation Authority. Not less than 7 days notice shall be given to the Waste Regulation Authority of the date on which operations are to recommence in the event of such a cessation.
17. A copy of any notice or instruction received in respect of the facility from any authority, other than the Waste Regulation Authority, which in any way relates to the use of the facility, shall be copied to the Waste Regulation Authority within 3 days of receipt.
18. The terms of this licence shall be made known to any person who is given responsibility for the management or control of the facility, and will be available at all times at the facility for the use of such persons.
19. Notwithstanding the generality of the conditions in this Schedule, the activities to which this licence relates shall not be carried on so as to cause pollution to water, danger to public health or become seriously detrimental to the amenities of the locality affected by the activities.
