For the attention of Mrs A Evans

Dear Mrs Evans

**Control of Pollution (Special Waste) Regulations 1980**  
**Disposal of Asbestos at Tythegston Landfill Site**

We acknowledge receipt of your letter of 12 January '95 and appreciate your comments.

We wish to confirm we record and maintain consignment notes accompanying all loads of asbestos waste delivered to our site. In addition, we have drawings indicating where deposits have been buried since we took over site responsibilities.

Meetings relating to Health & Safety matters are held on a regular basis and legislation and new developments discussed and applied as recommended.

Employees on site engaged with the disposal of asbestos waste are issued with protective clothing and masks and, a water spray system is in attendance when loads are off-loaded and deep-buried.

Yours sincerely

*pa* J Davies  
Managing Director

Mrs A Evans (between 9-10am & 3.30-4.30pm)

Mr J Davies,  
Davies Bros. (Waste) Ltd.,  
Tythegston Landfill Site,  
Tythegston,  
PORTHCAWL,  
Mid Glamorgan.

Dear Sir,

**CONTROL OF POLLUTION (SPECIAL WASTE) REGULATIONS 1980**  
**DISPOSAL OF ASBESTOS AT TYTHEGSTON LANDFILL SITE**

I refer to the recent conversation which took place with your Site Manager, concerning the above subject and reproduce, for your attention, extracts from the Special Waste Regulations.

**Part IV: Registers and Site Records**

A disposer shall keep at each site, a register containing copies of all consignment notes relating to special waste disposed of at that site.

A disposer shall keep the register until his disposal licence is surrendered or revoked and shall then furnish the register to the disposal authority in whose area the site is situated.

**Any person who makes a deposit of special waste on land shall record the location of each such deposit and shall keep such records until his disposal licence is surrendered or revoked and shall send the records for retention, to the disposal authority in whose area the site is situated.**

I would be obliged for you to ensure that Davies Bros. (Waste) Ltd. complies fully with the regulations. For your information, my Waste Management Officer was recently involved in legal proceedings whereupon the register and location plan for a similar site were required as court exhibits. Furthermore, a representative of the site management was cross examined in respect of the working procedures, in particular, the provision of protective masks, clothing and the availability of water sprays at the point of disposal.
