14 51 36.719 3 55.503
15 51 36.848 3 55.364
16 51 36.870 3 55.399

Dredging

Is your application for capital or maintenance dredging? Capital dredging is the removal of material that has not previously been dredged or has not been dredged in the last 10 years. This includes deepening or widening an existing dredge area. Maintenance dredging relates to the removal of material from areas which have previously been dredged (in the last 10 years) i.e dredging the same areas and to the same depth as before.

Maintenance dredging

Please provide the following details:

The last licence/application number DML1947V2

When sediment analysis was last undertaken 2025

When the area was last dredged -

Will the dredged material be disposed to sea, beneficially used, or used for another purpose?

Disposed in current disposal site.

If disposal at sea, provide the name and code of the proposed disposal site

DML1947V2 - LU130

What material is the likely composition of the dredge sediment e.g. silt, gravel? Provide proportions of the different types of material if relevant

Silt.

Public register

Is there any information contained within or provided in support of this application that you consider should NOT be included on the Public Register on the grounds that its disclosure:

	Yes	No
Would be contrary to the interest of National Security?		X
Would prejudice to an unreasonable degree you, or some other person's commercial interest or those of a third party?		X

Application fee

Please provide the method of payment

BACS

Please complete the details below which will be required for invoicing
