

# Request a sediment sample plan

## Applicant details

**Title** Mr  
**First name** David  
**Last name** Stubbins  
**Address** MHPA  
Gorsewood Drive  
Hakin, Milford Haven, Pembrokeshire  
**Postcode** SA73 3EP  
**Mobile phone** 07484095653  
**Email address** david.stubbins:mhpa.co.uk

## Volume of material to be dredged (m3)

154,000m3/annum (varies depending on requirements)

## Area of material to be dredged (m2)

As per existing disposal licence No DML2166, see attached

## Depth of the sediment to be dredged (as opposed to the water depth to be achieved)

0.3 to 1.5m Depth varies between dredge areas

## Location

### Description of the location (e.g. Holyhead Port)

Milford Haven

### Coordinates of the dredge area(s) (individually named areas, e.g. berths, should be detailed rather than one area)

As per existing disposal licence DML2166.  
There are 8 separate dredge areas covered by the existing licence:  
Mill Bay, Thorn Island, Valero, Milford Shelf, VPOT and Dragon LNG, Port of Pembroke, PDFT RoRo Berth, Pembroke Power Station intake and RoRo.  
See uploaded excel file for co-ordinates

We need to understand exactly where the work will happen through the coordinates you give us.

If you need to give us more than 10 coordinates, you must upload them in an Excel spreadsheet.

You can also upload a shapefile if you have one. You must include the .shp, .dbf, .shx and .prj files. You can upload these in a zip file.

Check how to give us coordinates (opens in a new tab).

Do you want to tell us about more than 10 coordinates?

Yes

## Give your coordinates

Make sure:

the coordinates are in this format: Lat 52.12345 Long -4.12345 you provide at least three coordinates your coordinates outline the entire area you will be working in (we call this the licence area)

|    | Latitude | Longitude |
|----|----------|-----------|
| 1. | 51.67698 | -5.17376  |
| 2. | 51.70522 | -5.14252  |
| 3. | 51.70395 | -4.94485  |
| 4. | 51.69520 | -4.94428  |
| 5. | 51.68337 | -4.97848  |
| 6. | -        | -         |
| 7. | -        | -         |
| 8. | -        | -         |
| 9. | -        | -         |

## Upload your coordinates

You can upload up to ten documents of 50MB each.

Select 'Choose file' each time

- File: Milford Haven Dredge Area Co-ordinates WGS84 and OS R1.xlsx - [Download](#)

## Dredging

Is your application for capital or maintenance dredging? Capital dredging is the removal of material that has not previously been dredged or has not been dredged in the last 10 years. This includes deepening or widening an existing dredge area. Maintenance dredging relates to the removal of material from areas which have previously been dredged (in the last 10 years) i.e dredging the same areas and to the same depth as before.

Maintenance dredging

Please provide the following details:

|                                                   |                                                                  |
|---------------------------------------------------|------------------------------------------------------------------|
| <b>The last licence/application number</b>        | DML2166v2                                                        |
| <b>When sediment analysis was last undertaken</b> | December 2023                                                    |
| <b>When the area was last dredged</b>             | Dredging was last carried out in Milford Haven in September 2026 |

If this is to support a renewal of a marine licence, state if there are any proposed changes to operation since the last licence

Samples are in association with existing 10year licence. No Proposed changes

Will the dredged material be disposed to sea, beneficially used, or used for another purpose?

At sea

If disposal at sea, provide the name and code of the proposed disposal site

LU169 and LU168

If beneficial use, how will the material be used and what is the proposed deposit location? Provide name of location and coordinates

No beneficial uses have been identified

What material is the likely composition of the dredge sediment e.g. silt, gravel? Provide proportions of the different types of material if relevant

All areas are silt apart from:  
Mill Bay, Thorn Island and Pembroke Dock RoRo ferry terminal. The first two are sand/shell and the last one is gravel/stones.  
The proportions will vary year on year depending on areas that require dredging.  
The majority of the material to be deposited will usually be silt.

Provide details of any previous exclusions from dredging/disposal/beneficial use/re-use

As per existing licence which is valid until 2032 subject to 3 yearly sample results

## Public register

Is there any information contained within or provided in support of this application that you consider should NOT be included on the Public Register on the grounds that its disclosure:

|                                                                                                                      | Yes | No |
|----------------------------------------------------------------------------------------------------------------------|-----|----|
| Would be contrary to the interest of National Security?                                                              |     | X  |
| Would prejudice to an unreasonable degree you, or some other person's commercial interest or those of a third party? |     | X  |

## Application fee

Please provide the method of payment

BACS

**Reference number (not BACS remittance number):**  
ADBP-616

Please complete the details below which will be required for invoicing
