How we use the non-compliance score to calculate your annual fee is explained in the 'Important Information' section below.

2. What action is required?

Criteria	Action needed	Complete by
W4A	Request a copy of the TCM's certification for Continual Competency, to ensure that the permit holder always has evidence of TCM competency compliance. An electronic copy will suffice.	10/12/2026

Compliance criteria codes are listed in the 'Important information' section below.

3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

At this time, we do not intend to take any further action.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

Purpose of inspection:
This was an unannounced, site visit made by Alex Underhill of Natural Resources Wales (NRW). The purpose of the inspection was to assess compliance against the Standard Rules SR2008_No11 Environmental Permit EPR-TB3093HA.

Recent heavy rainfall had been noted.

Previous inspection:
No permit breaches were observed during the last inspection dated 28/05/2024. Please see Compliance Assessment Report CAR_NRW0044464 for further detail.

Permit Breaches:
No permit breaches were observed during this inspection.

General observations:
The site was generally clean and well organised with good segregation of waste types and good waste storage practices were observed. Site opening hours are very limited, with the permit holden stating he is only on site several hours per week.

General Management (W1A):
The site is required to be operated in accordance with a written management system that identifies and minimises risks of pollution.

The Site (W2D):
All specified waste sections were kept separate and site was well maintained.

Technical competence:
The TCM for the site is a 3rd party consultant who holds the appropriate WAMITAB certification. Please request a copy of their certification for continual competence.
ACTION ONLY – **Records (W4A)** – Request a copy of the TCM's certification for Continual Competency, to ensure that the permit holder always has evidence of TCM competency compliance. An electronic copy will suffice.

Many thanks for your time during the inspection.

Ends.

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm of the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action required for the permit condition assessed to avoid non-compliance. No non-compliance scored at this time
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description	Score
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property	60
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property	31
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property	4
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property	0.1

How we use assessment scores
The number and severity of non-compliances recorded in a year will affect your annual subsistence fee the following year. A non-compliance factor is added to your site's Operator Performance Risk Appraisal (OPRA) score when we calculate your fee to reflect the additional resource we use to assess permit compliance.

If your assessment result in Section 1 is suspended, what does this mean?
In line with our guidance, we may suspend scores for up to six months to allow time for remedial action to be taken. Suspended scores will be re-instated if the action is not completed.
