Result types are explained in more detail in the 'Important Information' section below.

2. What action is required?

Criteria	Action needed	Complete by
WQ-B1	Please apply for a permit variation to amend the grid reference location for the soakaway	14/10/2026

Action criteria codes are listed in the 'Important information' section below.

3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

At this time, we do not intend to take any further action.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

On 3 September 2026, the caravan park was inspected to assess compliance with the environmental permit. The inspection was undertaken by an NRW Senior Environment Officer and was attended by the permit holder.

During the inspection, no issues were identified with the septic tank, pumping station, or soakaway system. The system appeared to be operating effectively and records indicated that it had been regularly emptied and appropriately maintained.

Compliance assessment and required action

It was noted that the soakaway has been relocated from the permitted location to a new position further uphill, with a pumping station installed as part of the revised system. Whilst these changes represent an improvement in terms of environmental protection and reduce the potential risk to water quality within the SSSI at Llyn Maelog, the current permit does not reflect the modifications that have been made.

As a result, this has been assessed as a **CCS4 breach** of the permit conditions.

Required Action

Please submit an application to vary **Condition 3.1.1, Schedule 3, Table S3.2** of the permit to reflect the current installation and location of the soakaway.

Deadline for submission: 14 October 2026.

If you have any queries about this report, or to discuss completion of any actions, please contact the NRW Officer named above.

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm to the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action required for the permit condition assessed to avoid non-compliance. No non-compliance scored at this time
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property
