Compliance criteria codes are listed in the 'Important information' section below.

3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

At this time, we do not intend to take any further action.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

This report details the site visit made on the 2nd September 2026 to Tarmac Trading Ltd, permit reference number EPR/HB3497TH. Natural Resources Wales (NRW) Officers Cerys PHILLIPS & Nicola ROSSITER attended the Tarmac Trading Ltd site at the Llanwern Works Inert Waste Recycling Facility, Queens Way, Llanwern Works, Newport, NP19 4QX for an unannounced routine site inspection at 11:20 am. The weather was raining, following a prolonged dry period.

PERMIT BREACH

Checking NRW systems, the last submitted waste return data received from Tarmac Llanwern works was for quarter 2, 2024. No other waste return data has been submitted since.

Permit condition 4.2.2 states *'Within one month of the end of each quarter, the operator shall submit to Natural Resources Wales SR2008 No1 v7.1 using the form made available for the purpose, the information specified on the form relating to the site and the waste accepted and removed from it during the previous quarter.'*

This is being scored as category 4 breach under W4B – Reporting to Natural Resources Wales.

Action – Please submit all outstanding waste returns by the 31st October 2026.

INSPECTION DETAILS

NRW officers were advised that the site was rarely used, with no treatment of waste currently taking place. The site was currently being used as storage for waste and some product.

General housekeeping on site was of a good standard with no waste stored outside the permit boundary. There was no offensive odours or excessive noise witnessed by NRW staff as well as minimal airborne dust witnessed. Stockpiles of materials were not deemed unsafe with the hardstanding flooring in good condition. There were areas of pooled water following recent rain, however, were of no cause for concern during the site inspection. All plant and machinery were non-operational with them being stored in appropriate safe locations on site. The site had secure fencing around the perimeter with a locked gate.

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm of the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action required for the permit condition assessed to avoid non-compliance. No non-compliance scored at this time
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description	Score
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property	60
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property	31
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property	4
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property	0.1

How we use assessment scores
The number and severity of non-compliances recorded in a year will affect your annual subsistence fee the following year. A non-compliance factor is added to your site's Operator Performance Risk Appraisal (OPRA) score when we calculate your fee to reflect the additional resource we use to assess permit compliance.

If your assessment result in Section 1 is suspended, what does this mean?
In line with our guidance, we may suspend scores for up to six months to allow time for remedial action to be taken. Suspended scores will be re-instated if the action is not completed.
