Newport City Council permit number DP3733BK (operational landfill)
Novera Energy Generation No2 Limited permit number LP3135SB (gas utilisation plant)

The purpose of this *File Note* is to record the findings of an off-site odour assessment undertaken locally to Docks Way Landfill, Newport ['the activity' / 'permitted installation'] in response to the following reported incidents:

Wales Incident Reporting System (WIRS) Ref: 2601003, 2601245, 2601259, 2601433, 2601431, 2601428, 2601461 and 2601470

Condition 3.3.1 of environmental permit DP3733BK states:

Emissions from the activities shall be free from odour at levels likely to cause pollution outside the site, as perceived by an authorised officer of Natural Resources Wales, unless the operator has used appropriate measures, including, but not limited to, those specified in any approved odour management plan, to prevent or where that is not practicable to minimise the odour.

Condition 2.2.6.1 of environmental permit LP3135SB states:

The Operator shall use BAT so as to prevent or where that is not practicable to reduce odorous emissions from the Permitted Installation, in particular by:

- limiting the use of odorous materials
- restricting odorous activities
- controlling the storage conditions of odorous materials
- controlling processing parameters to minimise the generation of odour
- optimising the performance of abatement systems
- timely monitoring, inspection and maintenance
- employing, where appropriate, an approved odour management plan

provided always that the techniques used by the Operator shall be no less effective than those described in the Application, where relevant.

The appropriateness/BAT of the measures to prevent and/or minimise odour will be assessed as part of our planned compliance programme. An assessment of records evidencing compliance with these procedures will also be undertaken as part of our planned compliance programme.

On 13 February 2026, Luke Burton undertook an odour assessment locally to Docks Way Landfill, Newport, at the locations and times detailed below in Table 1. All locations are outside the site boundary shown in permits DP3733BK and LP3135SB.

The operational status of the landfill and gas utilisation plant during the assessment period is unknown. The weather conditions encountered during the assessment are detailed in the Appendix. Weather conditions were derived from [WunderMap®](#) | [Interactive Weather Map and Radar](#) | [Weather Underground](#) – Weather Station ID INEWPO50 and INEWPO126

At the time of the assessment either no odours from the activities were detected or odours from the activities were detected, but not perceived to be at a level likely to cause pollution.

‘Pollution’ is as defined for the relevant activity in *The Environmental Permitting (England and Wales) Regulations 2016*.
