Compliance Assessment Report CAR_NRW0052940

Permit being assessed: BV9667IV.

For: Carmarthen EPR/BV9667IV, **held by:** ForFarmers Limited

At: ALLTYCNAP ROAD JOHNSTOWN , CARMARTHEN, CARMARTHEN, DYFED, SA31 3RD.

Type of assessment: Site Inspection,

Reason: Routine.

On: 10/09/2026 between 11:00 and 13:00.

Parts of permit assessed: site visit.

NRW Lead Officer: Daniel Packer.

Report sent to: Operations Manager - Carmarthen, Operations Manager - Carmarthen, on 15/09/2026.

1. Summary of our findings (full details in section 4)

Part of permitted activity assessed (compliance criteria)	Assessment result	Permit condition
IR1A - Installations - Management - General Management	Assessed (A)	
IR2B - Installations - Operations - The site	Assessed (A)	

Result types are explained in more detail in the 'Important Information' section below.

Total non-compliances recorded	Total non-compliance score
0	0

How we use the non-compliance score to calculate your annual fee is explained in the 'Important Information' section below.

2. What action is required?

No action required.

3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

At this time, we do not intend to take any further action.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

Natural Resources Wales carried out a routine site inspection at the ForFarmers Carmarthen facility on 10 September 2026. The purpose of the inspection was to assess site operations, infrastructure, environmental management measures, and overall compliance with permit requirements.

Site Activities Observed

At the time of the inspection, the site's permanent weighbridge was being removed and replaced with a modern alternative due to the age and condition of the existing equipment. During the replacement works, the operator is utilising a temporary hired weighbridge to maintain normal site operations.

Figure 1 Photo showing weight bridge replacement works and temporary weight bridge

A site walkover was undertaken with the site representative. During the inspection, two vehicles were observed receiving finished product from the loading bay. Additionally, one tanker vehicle was observed offloading a dairy fat blend via a pumping system located at the rear of the building.

Figure 2 Photo showing finished product loading.

Figure 3 Photo showing offloading of diary fat blend via tanker.

The operator explained that the elevator situated on the side of the main building has been decommissioned and is scheduled to be replaced during 2027.

Figure 4 Photo showing decommissioned elevator.

Site Improvements and Infrastructure

The operator outlined several recent and planned infrastructure improvements at the facility:

- Installation of a new high-level operator workroom located at the rear of the building on the first

floor with connecting walk way.

- Construction of an extended stores room beneath the new operator workroom.
- Installation of a new product elevator as a modern like-for-like replacement of existing equipment.
- Planned installation of a new conveyor system in October 2026, which will also be a modern like-for-like replacement of existing equipment.
- Ongoing replacement of the site weighbridge with a new modern unit.

NRW notes that these improvements demonstrate continued investment in site infrastructure and operational efficiency.

Figure 5 Photo showing new operator control room and stores extension.

Environmental Management

During the inspection, various environmental protection measures were observed across the site, including:

- Spill kits located at appropriate areas of operation secured using easy-break tamper seal cable ties.
- Bunded containment systems.
- Fire extinguisher stations.

Figure 6 Photo showing emergency spill kit station.

Figure 7 Photo showing bunded waste oil storage.

Figure 8 Photo showing ad blue storage.

Figure 9 Photo showing loading bay and spill kit.

These measures appeared to be maintained and in good condition at the time of the inspection.

The operator confirmed that the site has not received any recent complaints relating to noise or dust

emissions and stated that no such complaints have been received for a considerable period.

Operational Update

The operator reported that the site had experienced a particularly busy summer period. This increase in activity was attributed to unseasonably hot weather conditions affecting grazing crop growth, resulting in customers relying more heavily on manufactured feed products produced at the facility.

If you have any queries about this report, or to discuss completion of any actions, please contact the NRW Officer named above.

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm of the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action required for the permit condition assessed to avoid non-compliance. No non-compliance scored at this time
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description	Score
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property	60
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property	31
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property	4
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property	0.1

How we use assessment scores
The number and severity of non-compliances recorded in a year will affect your annual subsistence fee the following year. A non-compliance factor is added to your site's Operator Performance Risk Appraisal (OPRA) score when we calculate your fee to reflect the additional resource we use to assess permit compliance.

If your assessment result in Section 1 is suspended, what does this mean?
In line with our guidance, we may suspend scores for up to six months to allow time for remedial action to be taken. Suspended scores will be re-instated if the action is not completed.

Full list of Industry compliance criteria (used in section 1 and 2):

1. Management
- IR1A – General management
- IR1B – Finance (only applicable to Landfill)
- IR1C – Energy efficiency
- IR1D - Efficient use of raw materials
- IR1E - Avoidance, recovery and disposal of wastes produced by the activities
- IR1F - Multiple operator installations

2. Operations
- IR2A – Permitted activities
- IR2B – The site
- IR2C – Operating techniques
- IR2D – Technical requirements
- IR2E – Improvement programme
- IR2F – Pre-operational conditions
- IR2G – Landfill engineering (only applicable to Landfill)
- IR2H – Waste acceptance (only applicable to Landfill)
- IR2I – Leachate levels (only applicable to Landfill)
- IR2J – Closure and aftercare (only applicable to Landfill)
- IR2K – Landfill gas management (only applicable to Landfill)

3. Emission and Monitoring
- IR3A(1) – Emissions to water
- IR3A(2) – Emissions to air
- IR3A(3) – Emissions to land
- IR3B – Emissions of substances not controlled by emission limits
- IR3C – Odour
- IR3D – Noise and vibration
- IR3E – Monitoring
- IR3F – Pests
- IR3G – Air quality management plans
- IR3H – Monitoring for the purposes of the Industrial Emissions Directive (this heading includes Large Combustion Plants)
- IR3I – Fire

4. Information
- IR4A – Records
- IR4B – Reporting
- IR4C – Notification

Enforcement response
Any non-compliance with a permit condition is an offence and we may take legal action against you. Action we take can include prosecution, serving a notice on you and/or suspension or revocation of your permit. See our Enforcement and Sanctions Guidance for further information.

Data protection notice
You should make sure that anyone named in this report knows that the information it contains will be processed by Natural Resources Wales to fulfil its regulatory and monitoring functions and to maintain the relevant public register(s).

We may also use and/or disclose the report in connection with:

- offering or providing you with our literature or services relating to environmental matters
- consulting with the public, public bodies and other organisations (e.g. Health and Safety Executive, local authorities) on environmental issues
- carrying out statistical analysis, research and development on environmental issues
- providing public register information to enquirers
- investigating possible breaches of environmental law
- assessing customer service satisfaction and improving our service
- Freedom of Information Act or Environmental Information Regulations requests.

We may also pass it on to our agents or representatives to do these things on our behalf.

Disclosure of information – this report will be available to view on-line
If you think this report contains commercially confidential information that should not be placed on our public register, you must contact your local Natural Resources Wales office within **fifteen working days** of receiving this report, using the contact details in the accompanying email or letter. You must give a full explanation of why it should not be added to our public register, including specifying which information is commercially confidential. We will assess your request and respond to you within twenty working days to let you know if we agree to your request.

Disputing the Content of this Compliance Assessment Report Form
If you disagree with the content of this Compliance Assessment Report form, you should submit your concerns, in writing, to the regulating officer who issued it within **15 working days** of its issue. This will be treated as a **Stage 1 review**.

If you are not satisfied with the outcome of the stage 1 review, you may request a **Stage 2 appeal**. This request must be submitted **within 21 working days** of receiving the response from the stage 1 review.

Further details on our review and appeal process are available at: Natural Resources Wales / Appeal a regulatory decision from Natural Resources Wales

Concerns Not Related to the Content of this Compliance Assessment Report Form
If your concerns do not relate to the content of the Compliance Assessment Report form, you should first attempt to resolve the issue with the regulating officer or their line manager.

If the issue remains unresolved, please contact our **Customer Contact Team**:

- **Telephone**: 0300 065 3000 (Monday to Friday, 09:00–17:00)
- **Email**: enquiries@naturalresourceswales.gov.uk

They will provide details on how to escalate your concerns through our **Complaints and Commendations procedure**.

If you are dissatisfied with our response, you may contact the **Public Services Ombudsman for Wales**:

- **Telephone**: 0300 790 0203
- **Email**: ask@ombudsman.wales

Welsh Language Standards

We are committed to establishing Natural Resources Wales as a naturally bilingual organisation. We will provide compliance reports in your preferred language.
