3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

You are non-compliant with your permit.

At this time, we are issuing you with a warning for the non-compliance recorded above. Warnings may influence future enforcement response for continued or further non-compliance.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

Note: CAR re-issued on 14th/15th September 2026 to include separate breaches for each quarter that data was late, as required in the permit.

The non-compliance(s) listed above were identified by the Water Compliance Team when checking for quarterly Operator Self Monitoring (OSM) data submissions from Hafren Dyfrdwy (HD). These submissions are required at a minimum of quarterly as part of HD's OSM water discharge permit conditions, but were submitted late on this occasion.

The 3 results (BOD, TSS and ammonia) for OSM samples taken at Four Crosses STW (permit number S/01/56380/R) on the 21/05/2025 & 11/07/2025 were submitted late on 20/10/2025.

Failure to report within the quarter is a breach of condition OSM9.

Non-Compliance category:

This has been classified as a category 3 non-compliance, as a late data submission means NRW cannot regulate properly. HD were eventually prompted to submit the late data.

Actions:

Please adhere to the conditions set out in your environmental permit.

We understand that the incident has already been discussed during an NRW / HD meeting on 3rd November, and that processes have been put in place to prevent recurrence.
