How we use the non-compliance score to calculate your annual fee is explained in the 'Important Information' section below.

2. What action is required?

No action required.

3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

You are non-compliant with your permit.

At this time, we are issuing you with a warning for the non-compliance recorded above. Warnings may influence future enforcement response for continued or further non-compliance.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

This Compliance Assessment Report (CAR) form has been produced to confirm that the action specified in the Regulation 36 Notice dated 7 April 2026 have been completed.

The Category 2 breach score, issued on 16 December 2025, was suspended following the submission of the variation application on 11 May 2026, which included the required documentation, namely the Environmental Management System.

As an enforcement response to the offence under Regulation 12(1) of the Environmental Permitting (England and Wales) Regulations 2016, a warning has been issued on this occasion.

However, our decision could change if any further relevant information comes to light, including, but not restricted to, information that:

- the Company has committed earlier offences;
- the environmental impacts of this offence is greater than we presently understand them;
- the offences are continuing or have been repeated;
- the Company has committed other offences of which we are presently unaware.

We will take this offence into account if we consider that the Company is involved in any future offending.

This warning does not:

- prevent any other prosecuting authority taking action against the Company; or
- affect our right to issue enforcement, clear-up or remediation notices, or seek recovery of costs or damages according to law.

You should also be aware that under the Landfill Disposal Tax (Wales) Act 2017 (LDTA),

certain disposals of waste, made at a place other than an authorised landfill site (unauthorised disposals) are subject to landfill disposal tax. This tax is collected and managed by the Welsh Revenue Authority (WRA). Under Section 60 of this Act, **Natural Resources Wales may share information with WRA** to assist in the collection and management of this tax, and therefore WRA may consider landfill disposal tax to be chargeable in this case.

If you have any queries about this report, or to discuss completion of any actions, please contact the NRW Officer named above.

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm of the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action required for the permit condition assessed to avoid non-compliance. No non-compliance scored at this time
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description	Score
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property	60
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property	31
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property	4
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property	0.1

How we use assessment scores
The number and severity of non-compliances recorded in a year will affect your annual subsistence fee the following year. A non-compliance factor is added to your site's Operator Performance Risk Appraisal (OPRA) score when we calculate your fee to reflect the additional resource we use to assess permit compliance.

If your assessment result in Section 1 is suspended, what does this mean?
In line with our guidance, we may suspend scores for up to six months to allow time for remedial action to be taken. Suspended scores will be re-instated if the action is not completed.
