3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

At this time, we do not intend to take any further action.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

Purpose of inspection:
This was an unannounced, site visit made by Alex Underhill of Natural Resources Wales (NRW). The purpose of the inspection was to assess compliance against the Standard Rules SR2008 No1 Environmental Permit EPR-XP3097EG.

Rainfall was noted during the time of inspection.

Previous inspection:

No permit breaches were observed during the last inspection dated 07/02/2025 Please see Compliance Assessment Report CAR_NRW0046280 for further detail.

Permit Breaches:

No permit breaches were observed during this inspection.

General observations:

The site was generally clean and well organised with good segregation of waste types and good waste storage practices were observed.

General Management (W1A):

The site is required to be operated in accordance with a written management system that identifies and minimises risks of pollution.

The Site (W2D):

All specified waste sections were kept separate, and site was generally well maintained. General waste is sorted under cover. Processing stock was higher than usual due to staffing levels; however, this is still within the permitted activities. Waste levels will be assessed against the FPMP at the next inspection.

Reporting (W4B):

Up to date Site Permit and EMS were readily accessible on site and stored electronically. Latest Waste Return Notes are not showing as submitted on NRW systems, please confirm whether Waste Returns have been submitted up to Q2 2026. This is in line with **Condition 4.2.2** of the Environmental Permit – "Within one month of the end of each quarter, the operator shall submit to Natural Resources Wales using the form made available for the purpose, the information specified on the form relating to the site and the waste accepted and removed from it during the previous quarter.

ACTION– Confirm quarterly Waste Returns have been submitted to NRW. Deadline for this is

22/10/2026.

Technical competence:

The TCM for the site holds the appropriate WAMITAB certification. The latest certificate is available electronically, the expiry date on Continual Competency is 23/04/2027.

Many thanks for your time during the inspection.

Ends.

In this document 'Natural Resources Wales' means the Natural Resources Body for Wales established by Article 3 of the Natural Resources Body for Wales (Establishment) order 2012.

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm of the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action required for the permit condition assessed to avoid non-compliance. No non-compliance scored at this time
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description	Score
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property	60
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property	31
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property	4
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property	0.1

How we use assessment scores
The number and severity of non-compliances recorded in a year will affect your annual subsistence fee the following year. A non-compliance factor is added to your site's Operator Performance Risk Appraisal (OPRA) score when we calculate your fee to reflect the additional resource we use to assess permit compliance.

If your assessment result in Section 1 is suspended, what does this mean?
In line with our guidance, we may suspend scores for up to six months to allow time for remedial action to be taken. Suspended scores will be re-instated if the action is not completed.
