4. Details of our assessment

This report details the site visit made on the 9 September 2026 to Associated British Ports, Newport, permit reference number EPR-AB3699FY.

Natural Resources Wales (NRW) Officers Carla CURTIS, Nicola ROSSITER and Taj PADAM attended the Associated British Ports (ABP) site at Alexandra Docks, East Way Road, Newport, NP20 2NP for an unannounced routine site inspection at 10:15am. The weather was dry and reasonably warm at the time of the inspection.

PERMIT BREACHES

No permit breaches have been identified during this site inspection.

GENERAL OBSERVATIONS The site was not operational at the time of site inspection, the infrastructure on site was in good condition with no apparent damage visible. General housekeeping on site was maintained to a good standard and no causes for concern were identified, there was no excessive noise along with no visible airborne dust present and there were also no offensive odours witnessed by NRW Officers.

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm of the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action required for the permit condition assessed to avoid non-compliance. No non-compliance scored at this time
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description	Score
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property	60
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property	31
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property	4
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property	0.1

How we use assessment scores
The number and severity of non-compliances recorded in a year will affect your annual subsistence fee the following year. A non-compliance factor is added to your site's Operator Performance Risk Appraisal (OPRA) score when we calculate your fee to reflect the additional resource we use to assess permit compliance.

If your assessment result in Section 1 is suspended, what does this mean?
In line with our guidance, we may suspend scores for up to six months to allow time for remedial action to be taken. Suspended scores will be re-instated if the action is not completed.
