3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

At this time, we do not intend to take any further action.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

This report details the site visit made on the 9 September 2026 to A1 Waste Management, permit reference number EPR-FP3295FN.

Natural Resources Wales (NRW) Officers Carla CURTIS and Nicola ROSSITER & Taj PADAM attended the A1 Skips permitted facility at Alexandra Docks, West Way Road, Newport, NP20 2UW for a routine unannounced site inspection. Officers arrived at 11am and met with the Site supervisor. The weather was dry and warm.

PERMIT BREACHES

No permit breaches have been identified during this site inspection.

GENERAL OBSERVATIONS

The site was operational at the time of the site inspection.

SITE INFRASTRUCTURE

General housekeeping on site was of a good standard with no loose debris visible. The impermeable pavement appeared in good condition (see photo1). There was some movement of waste at the time of the inspection ensuring the housekeeping in the area remained of a good standard. The height of waste stockpiles on site were within compliance of the sites Fire Prevention and Mitigation Plan (FPMP) and no issues were identified. Drainage on site is via an interceptor (See photo 2) and is checked daily and is

cleaned every 6 months. There was no excessive noise along with no airborne dust present during the site inspection. There were also no offensive odours witnessed by NRW Officers on site and security was of no concern either.

WAMITAB

The site TCM (Technically Competent Manager) is Lindsey KELLY, please send an up-to-date copy of your WAMITAB certificate.

ACTION - Please send copy of your WAMITAB certificate to NRW officer following the issue of this CAR form by the 30th of September 2026.

WASTE RETURNS

Lindsey Kelly is responsible for submitting waste returns for the site. The maximum total quantity of waste accepted at the site per year shall not exceed 24,000 tonnes. Based on the submitted waste return data for the last four quarters of 2025/2026, the total waste accepted was 7,920 tonnes which is well within the site's annual threshold. Please continue to submit these in line with your permit requirements.

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm of the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action required for the permit condition assessed to avoid non-compliance. No non-compliance scored at this time
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description	Score
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property	60
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property	31
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property	4
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property	0.1

How we use assessment scores
The number and severity of non-compliances recorded in a year will affect your annual subsistence fee the following year. A non-compliance factor is added to your site's Operator Performance Risk Appraisal (OPRA) score when we calculate your fee to reflect the additional resource we use to assess permit compliance.

If your assessment result in Section 1 is suspended, what does this mean?
In line with our guidance, we may suspend scores for up to six months to allow time for remedial action to be taken. Suspended scores will be re-instated if the action is not completed.
