Permit being assessed: HB3490HK.

For: Abertawe Metals Recycling Ltd, **held by:** Abertawe Metal Recycling Limited

At: Dyffryn Close, Swansea Enterprise Park, Swansea, Swansea, SA6 8QG.

Type of assessment: Site Inspection,

Reason: Routine.

On: 17/09/2026 between 12:00 and 13:00.

Parts of permit assessed: A1.1 Specified by permit.

NRW Lead Officer: Angharad Clark, accompanied by Sally Wakeford.

Report sent to: James Larner, Operator, on 25/09/2026.

1. Summary of our findings (full details in section 4)

Part of permitted activity assessed (compliance criteria)	Assessment result	Permit condition
W2A - Waste - Operations - Permitted activities	Assessed (A)	
W1A - Waste - Management - General management	Action only (X)	

Result types are explained in more detail in the 'Important Information' section below.

Total non-compliances recorded	Total non-compliance score
0	0

How we use the non-compliance score to calculate your annual fee is explained in the 'Important Information' section below.

2. What action is required?

Criteria	Action needed	Complete by
W1A	Keep pad clean	19/10/2026

Compliance criteria codes are listed in the 'Important information' section below.

3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

At this time, we do not intend to take any further action.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

On 17th September 2026 Angharad Clark and Sally Wakeford attended site and met with the operator. It had recently started raining after a long dry summer.

The Site
The site had a larger than normal volume of scrap present. This was because the shredder had been broken for six weeks and a rental one had only been acquired some days before the inspection.
There was a larger than normal volume of upvc window frames present. The site is bulking them before onward disposal.
Baled tyres and now collected for onward recovery abroad.

Permitted activities
All activities observed during the inspection were on line with the permit.

General Management
There was some mud observed on the impermeable pad. A road sweeper had been booked to clean the area.

Thank you for taking the time to show us around.

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm of the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action required for the permit condition assessed to avoid non-compliance. No non-compliance scored at this time
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description	Score
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property	60
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property	31
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property	4
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property	0.1

How we use assessment scores
The number and severity of non-compliances recorded in a year will affect your annual subsistence fee the following year. A non-compliance factor is added to your site's Operator Performance Risk Appraisal (OPRA) score when we calculate your fee to reflect the additional resource we use to assess permit compliance.

If your assessment result in Section 1 is suspended, what does this mean?
In line with our guidance, we may suspend scores for up to six months to allow time for remedial action to be taken. Suspended scores will be re-instated if the action is not completed.
