4. Details of our assessment

Snowdon Ranger Hostel was inspected on the 21st September 2026.

The hostel has recently been bought by new owners and is in the process of transferring the permit to their name. In the meantime the hostel operates as usual.

The treatment plant was seen on the day of inspection, but was overgrown and needs some tidying up. The pumps could be heard moving water into the plant, though with only one occupant in the hostel on the day of the visit, the flows into the plant were low.

ACTION
Get a suitable third party specialist to assess the plant and confirm it is working as required by the **29th October 2026**

Ensure the plant is emptied and maintained as required, and keep records of this by the **29th October 2026**
