1. Summary of our findings (full details in section 4)

Part of permitted activity assessed (criteria)	Assessment result	Non-compliant permit condition
WQ-C1 - Water Quality - Emissions and monitoring - Emissions to water	Assessed (A)	

Result types are explained in more detail in the 'Important Information' section below.

2. What action is required?

No action required.

3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

At this time, we do not intend to take any further action.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

Sealyham Activity Centre was visited on 2 October 2026.
NRW met with an instructor who gave us a tour of the site.

The centre has the potential capacity for 122 residents and operates all year round.
The sample point was inspected and appeared to be running clear.

The access to the sample point will need some attention as it could prove dangerous in certain conditions. The path towards the sample point and surrounding area will need to be cleared and maintained, installation of a hand rail would be beneficial.

Please provide any paperwork associated with any servicing/maintenance and de sludge of the system which has taken place in the last two years.

Email received from Operator 9 October 2026

We are currently awaiting the contractor to attend site to carry out the work identified during their visit at the start of the year. They have advised us that this is expected to commence in the coming week. There have been significant delays in this due to the contractor seeking confirmation from the manufacturer of the biodigester regarding the correct method for installing a new hatch to support improved servicing, maintenance, and continued compliance of the plant.

I have requested an inspection (which is due in the coming month) and an updated maintenance schedule.

Our head of centre who has primarily been dealing with is on annual leave till the backend of next week and may have other documentation reference the plant and contractor's maintenance schedule.

As soon as any further documentation is received, we will forward it to you immediately.

Documents received from the Operator relating to system de sludge and associated paperwork are stored in the NRW document system

Please update NRW by 30 November 2026

If you have any queries about this report, or to discuss completion of any actions, please contact the NRW Officer named above.

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm to the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action required for the permit condition assessed to avoid non-compliance. No non-compliance scored at this time
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property
