NRW Lead Officer: Caryl Brace.

Report sent to: chris.short@ancalawater.com, O&M Manager South Wales, on 14/10/2026.

1. Summary of our findings (full details in section 4)

Part of permitted activity assessed (criteria)	Assessment result	Non-compliant permit condition
WQ-C1 - Water Quality - Emissions and monitoring - Emissions to water	C4 No impact	9(i)

Result types are explained in more detail in the 'Important Information' section below.

2. What action is required?

Criteria	Action needed	Complete by
WQ-C1	Improve operations	09/11/2026

Action criteria codes are listed in the 'Important information' section below.

3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

At this time, we do not intend to take any further action.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

A routine sample taken on 24 September 2026 returned a BOD result of 20.2 mg/l against

a permit limit of 20 mg/l.

Please advise NRW as to the reasoning for this failure.

Deadline for response please 9 November 2026

Correspondence received from Operator 14/10/2026

The investigation has identified the syphon which distributes the wastewater to the filter beds was not operating optimally. As such biological treatment was temporarily impacted. This has been addressed with interim actions and monitoring by the O&M Team whilst the permanent fix is completed; the O&M Manager has confirmed this is scheduled to be attended by the M&E Team next week.

As part of the AWS asset management and monitoring programme, our UKAS accredited sampling and analysis partner collects monthly samples of the final effluent. The sample collected 25/09/2026 returned these results (below) indicating the elevated BOD was transient.

- Ammonia 12.3mg/l
- BOD 12mg/l
- pH 7.5
- SS 7mg/l

In addition, for reassurance, the latest field results of the final effluent collected 12/10/2026 as part of the asset health monitoring are:

- Ammonia 0.34mg/l
- pH 7.2
- Turbidity 5NTU

Please be assured AWS are committed to ensuring permit compliance. We will continue to monitor the assets performance.

Closed 14 October 2026

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm to the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action required for the permit condition assessed to avoid non-compliance. No non-compliance scored at this time
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property
