If...	then..
you plan to keep your records at a site other than where the activity takes place	you need to let us know within 20 working days of receiving this letter.
your permit includes pre-operational or improvement conditions	check the deadlines for completing measures and make sure you carry them out by the times stated
you are carrying out a waste operation or activity and need to submit quarterly waste returns on waste movements Note: This does not apply to permits that only have stand alone water discharge or groundwater activities.	<p>We will send you the relevant returns spreadsheet to complete when we send you a reminder to submit your returns. Further information is available on our website</p> <p>http://naturalresources.wales/waste/new-wales-operator-waste-return-and-deadlines-for-returns/?lang=en</p> <p>When you complete your return use the waste returns reference above.</p>
your permit includes an installation	we enclose a legal notice and information about Emissions Inventory Reporting.
you need to submit other returns	send these to your area office. Speak to your area officer to check local arrangements.

There is an annual subsistence charge for your permit unless:

- your permit is only for discharges of sewage effluent where the maximum daily volume of discharge permitted is five cubic metres or less (this does not apply to non trade effluent or any other type of discharge);
- or your permit is only for mobile plant, instead we will charge for each deployment.

The annual charge is due on demand in the year that we issue the permit and then on 1 April each year. The charge starts from the date we authorise the permit, unless there's a condition relating to a standalone water discharge which states a later start date. In that case we will charge for the discharge from the start date. If you need to know more about the subsistence charge please look at the charging guidance on our website at www.naturalresourceswales.gov.uk.

Rights of appeal

You may withdraw an appeal by notifying the Welsh Ministers in writing and sending a copy of that notification to us.

Please note that we have issued your permit with a temporary permit number. This is an interim measure whilst we are upgrading our IT system. We will re-issue your permit with a new EPR number as soon as the work to our system is complete. This may take 6-12 months.

If the UK leaves the EU - either with or without a deal - the legal obligations relating to compliance with environmental permits and legislation will continue to apply. NRW will continue to issue and regulate all permits and licenses in line with our current practice. Yours sincerely
