### Section 1 – Compliance Assessment Summary

This is based on the requirements of the permit under the Environmental Permitting Regulations or the licence under the Water Resources Act 1991 as amended by the Water Act 2003. A detailed explanation is captured in "Compliance Assessment Report Detail" (Section 2) and any actions you may need to take are given in the "Action(s)" (section 4). This summary details where we believe any non-compliance with the permit has occurred, the relevant condition and how the non-compliance has been categorised using our Compliance Classification Scheme (CCS). CCS Scores can be consolidated or suspended where appropriate, to reflect the impact of some non-compliances more accurately. For more details of our CCS scheme, contact your local office.

This was a pre-arranged audit carried out by Tim Arlett and Julia Lloyd, representatives of Hafren Dyfrdwy were present during the audit and talked us through the process of the sewage treatment works.

There were no non-compliances recorded during the audit.

However an advisory note - It was discussed on site about signage and possible fencing for the storm grass plot that is situated outside the fenced compound.

Both the storm and the final discharge point were checked during the audit and no issues were recorded.

Flow data has been requested and recieved, we are now awaiting addition storm alarm data to conclude the report.

NRW would like to thank you for your time during the visit.
