The Swansea Canal was constructed by the Swansea Canal Company in 1794 under an Act of Parliament, 34 Geo. 3 c. 109 (1794). The Act authorised the creation and maintenance of feeder channels, and the Ystalyfera feeder was constructed under these powers. The Trust are the successors in title to the Swansea Canal Company, and have accessed the feeder channel for maintenance and inspection purposes unchallenged for at least 20 years.

8.3 Do you wish your abstracted quantities to be aggregated?

You can aggregate:

- i) across some or all of the abstraction points, or reaches, or areas listed above.
- ii) with other abstractions you wish to have licensed through the transitional process.
- iii) abstractions you need to have licensed through the standard licensing process.
- iv) with existing licences you hold.

No ☒

Yes ☐ Provide details of any proposed aggregation in the box below. If necessary, continue on a separate sheet and provide a reference for this document.

Document reference

8.4 Please provide a detailed description of how the abstraction(s) has/have taken place

Use the box below to tell us about your abstraction(s). The description should include the following:

- A diagram or schematic of how the activity has been undertaken, using your abstraction point references and including any discharge points
- Details of the structure and equipment involved in the abstraction. This should include dimensions.
- Details of your means of measurement or assessment of abstraction quantities method

If necessary, continue on a separate sheet and tell us the reference for this document.

8.4 CRT484_Ystalyfera Abstraction Details

Please refer to this section in supporting information document: CRT484_Supporting Information.pdf for a general description of the feeder, schematic of abstraction arrangement, details of the structures, means of measurement/assessment of abstraction quantities method and general principles of maintaining a level on Canal & River Trust Navigations.

8.5 Please list the evidence you are providing to support your application

Use the box below. The evidence should demonstrate the following:

- That abstraction has taken place at some time during the seven year qualifying period.
- The quantities of water you have abstracted during the qualifying period. For example, records of meter readings, or cropping plans.

If necessary, continue on a separate sheet and provide a reference for this document.

9.2 Please provide a description of discharge structures and equipment

Abstraction to the canal feeder is controlled by a sluice at Abstraction Point A. The abstraction discharges into a culvert immediately downstream of the sluice. Flow then continues into an open channel which is then part culverted to the Swansea Canal at Ynysmeudwy approximately 3km downstream. Please see section 7.1 CRT484_Ystalyfera Feeder Location Map in CRT484_Supporting Information.pdf showing the location of discharge point B.

If necessary, continue a separate sheet and provide a reference for this document.
