### **Introductory note**

**This introductory note does not form a part of the notice**

The following notice gives notice of the variation of an environmental permit.

This is an operator initiated variation to add 5 additional waste codes related to carbon filtration processing. The additional waste codes are similar in nature to those already permitted:

- 10 01 18\* wastes from gas cleaning containing hazardous substances
- 19 01 10\* spent activated carbon from flue-gas treatment
- 19 08 02 waste from desanding
- 19 09 01 solid waste from primary filtration and screenings

The schedules specify the changes made to the original permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
