Section 1 – Compliance Assessment Summary

This is based on the requirements of the permit under the Environmental Permitting Regulations or the licence under the Water Resources Act 1991 as amended by the Water Act 2003. A detailed explanation is captured in "Compliance Assessment Report Detail" (Section 2) and any actions you may need to take are given in the "Action(s)" (section 4). This summary details where we believe any non-compliance with the permit has occurred, the relevant condition and how the non-compliance has been categorised using our Compliance Classification Scheme (CCS). CCS Scores can be consolidated or suspended where appropriate, to reflect the impact of some non-compliances more accurately. For more details of our CCS scheme, contact your local office.

Permit conditions and compliance summary	CCS Category	Condition(s) breached
C1 - General Management - Staff competency/training	X	
C2 - General Management - Management system and operating procedures	X	

KEY: See Section 5 for breach categories, suspended scores will be indicated as such.

A = Assessed or assessed in part (no evidence of non-compliance), **X** = Action only,

O = Ongoing non-compliance, not scored.

Number of breaches recorded	0	Total compliance score (see section 5 for scoring scheme)	0
-----------------------------	---	--	---

If the Number of breaches recorded is greater than zero, please see Section 3 for our proposed enforcement response

Section 2 – Compliance Assessment Report Detail

Compliance Assessment Report – Longlands Quarry (EPR-FB3232AW)

Officers David WARWICK-BROWN & Ffion THOMAS conducted an inspection of Longlands Quarry on 05/12/2019, 12:40-13:20. We met with Operations manager Anthony Davies who showed us around the site during the inspection. There were no major issues identified and no permit breaches have been scored following the visit. The weather was cold with some sunny spells.

Green Circle Developments are in the process of extending the quarry and are currently awaiting approval for the required planning permission.

Site inspection

Permit boundary:

Prior to the site visit, it was noted that the permit boundary as shown within Schedule 1 of the permit was considerably smaller than the overall perimeter of the quarry as seen on satellite images. However, on inspection of the site it was clear that the waste operations were only small scale compared to the working quarry and were being conducted well within the permit boundary.

Exported material:

All soil produced from the quarry operations are directed to Green Circle Developments soil screening and recycling facility at Langcross Farm (EPR-FB3937RH); all stone is exported as product and periodically sampled according to the WRAP Quality Protocol, as confirmed in conversation with Technically Competent Manager (TCM) Robert Harry following the inspection.

Action: Please submit a representative sample of your WRAP Quality Protocol to NRW for our records.

WAMITAB continuing competency:

During the phone conversation with TCM Robert Harry following the inspection it was determined that the certification for the relevant WAMITAB certification is out of date.

Action: Please book a test for obtaining the required continuing competency via the WAMITAB website (<https://wamitab.org.uk/competence/continuing-competence/>) and send confirmation of the test booking to NRW by **10/01/2020**.

Thank you for taking the time to show us around the site during the inspection.

Section 3 – Enforcement Response

You must take immediate action to rectify any non-compliance and prevent repetition. Non-compliance with your permit conditions constitutes an offence and can result in criminal prosecutions and/or suspension or revocation of a permit. Please read the detailed assessment in Section 2 and the steps you need to take in Section 4 below.

Other than the provision of advice and guidance, at present we do not intend to take further enforcement action in respect of the non-compliance identified above. This does not preclude us from taking enforcement action if further relevant information comes to light or advice isn't followed.

Section 4 – Action(s)

This section summarises the actions identified during the assessment along with the timescales for when they will need to be completed.

Criteria Ref.	CCS Category	Action required/advised	Due Date

Section 5 – Compliance notes for the Operator

To ensure you correct actual or potential non-compliance we may

- Advise on corrective actions verbally or in writing
- Require you to take specific actions verbally or in writing
- Issue a notice
- Require you to review your procedures or management system
- Change some of the conditions of your permit
- Decide to undertake a full review of your permit

Any breach of a permit condition is an offence and we may take legal action against you

- We will normally provide advice and guidance to assist you to come back into compliance either after an offence is committed or where we consider that an offence is likely to be committed. This is without prejudice to any other enforcement response that we consider may be required.
- Enforcement action can include the issue of a formal caution, prosecution, the service of a notice and/or suspension or revocation of the permit.

See our Enforcement and Civil Sanctions guidance for further information

This report does not relieve the site operator of the responsibility to

- Ensure you comply with the conditions of the permit at all times and prevent pollution of the environment
- Ensure you comply with other legislative provisions which may apply
