

APPLICATION FOR A MARINE LICENCE FOR MARINE WORKS

Marine Works include, but are not limited to, coast defences, beneficial uses of dredged materials, subsea cables, pontoons, jetties, land reclamation, grab samples and outfall pipes under the Marine and Coastal Access Act 2009

Please read the notes carefully before completing the form.

- The Marine Licensing Team (MLT) administers Part 4 of the Marine and Coastal Access Act 2009 on behalf of the Licensing Authority, the Welsh Ministers.
- The completed application form must be accompanied by a location plan and, where appropriate, descriptive drawing(s) and any supporting environmental assessments. One completed hard copy of the application and supporting documents will always be required. Additional copies are required for consultation purposes.
 - For application and supporting documents less than 10MB we can accept an additional copy via email.
 - For applications larger than 10MB **16** additional copies in CD/DVD format will be required
 - When applications and supporting documents are hard copy only **16** copies will be required.
- Please submit applications to the **Permit Receipt Centre** via the details at the top of this form
- Please submit marine licence applications, including this form and all supporting documents, **at least 4 months before the licence is required.**

Some projects may raise matters that require a significantly longer time for consideration. These are most likely to be:

- Projects that fall **within** The Marine Works (Environmental Impact Assessment) Regulations 2007 – as amended requiring an Environmental Statement
- Large scale projects with substantial volumes of material being deposited or excavated
- Works requiring an Appropriate Assessment to be conducted under The Conservation of Habitats and Species Regulations 2017.
- Information should be provided about the anticipated **duration of the entire project** in respect of works below/seaward of Mean High Water Spring (MHWS). Where appropriate, planned phasing of the work for which consent is sought must be detailed. For projects lasting more than one calendar year, planned phasing details must be given for each 12 month period.

A licence fee is payable in respect of an application. Details of fees can be found on our web pages.

Please note applications will not be processed without the correct relevant fee or invoicing details.

- Payments can be made via Cheque, BACS or credit/debit card.
 - Cheques should be crossed and made payable to **Natural Resources Wales.**
 - For BACS payments ensure you provide the reference number (not remittance number)

- For credit/debit card payments please complete the CC1 form and submit with the application. The CC1 form can be found on our web pages

Further information on payment methods can be found on our web pages

- **All activities need to comply with the Water Framework Directive (WFD). The framework and guidance can be found on the Natural Resources Wales website, <http://naturalresources.wales>. The results of your WFD assessment must be attached to your marine licence application.**
- Please answer all questions. If any information is not available at the time of application please indicate in the relevant section, giving reasoning in a covering letter. Outstanding details must be submitted as soon as possible. Any delay in forwarding details is likely to result in delays in determining your application.

Your application may not be considered complete and therefore not processed until key information has been submitted. Your application may be returned if you fail to submit outstanding information within given timescales.

- Please note any licence may have conditions that must be discharged before works can commence. This will take additional time.
- If you have any queries with regards to completing this application please contact the MLT: marinelicensing@naturalresourceswales.gov.uk

How your application will be processed by the MLT:

- Submit all application to the **Permit Receipt Centre** via the details at the top of this form.
- Checked and acknowledged by the MLT within 21 days of receipt of application and payment
- If the application is complete and no further information is needed at this time, your application will be placed in a work queue to be assigned a permitting officer
- If the application is not complete, further information will be request and need to be provided before the application can be considered as complete
- Our **4 months** service level for determining non-EIA applications will begin from the date the **completed** application is received (*Please note some projects may take significantly longer than 4 months to determine due to their nature*)
- EIA projects may take significantly longer due to their scale and complexity. Therefore we encourage early engagement with the MLT
- Your application and supporting documents will be sent to for an initial consultation period of 28 days (*42 days for EIA projects*)
- For the majority of projects, a public notice must be advertised. Public consultation will be 28 days (*49 days for EIA projects*).
For EIA projects a second public notice will be required. The MLT will advise on how this should be done.
- Responses to consultation will be considered and additional information requested at this time, if necessary.

- A decision on your Marine Licence Application will be made

All information submitted may be referred to within a licence, therefore all works must be in accordance with this information, unless otherwise agreed with NRW acting on behalf of the Licensing Authority during the determination process.

It is the responsibility of the applicant to obtain any other consents/authorisations that may be required.

Application Form Structure

1. Project Description and Cost
2. Applicant Details
3. Details of Agent, Contractor, Vehicles and/or Vessels used to carry out works
4. Environmental Impact Assessment (EIA)
5. Licensable Period
6. Project Description
7. Methods Statement
8. Materials of Project
9. Beach Replenishment, Land Reclamation or Salt Marsh Feeding
10. Temporary Works
11. Dredge and Disposal of Dredge Material
12. Protected Sites
13. Other Consents
14. Statutory Powers
15. Public Register
16. Application Fee
17. Declaration

Check List

Please ensure that you have included all the necessary information before you submit your application. **If any of the below are not completed in the application form, the application is likely to be considered incomplete and may be returned to you**

Item	Yes (✓)
The applicant is a legal entity?	✓
The declaration is signed by the applicant?	✓
Is the application fee correct?	✓
Are the grid references/coordinates correct?	✓
Do the coordinates match map locations?	✓
Have all the relevant supporting documents been submitted?	✓
Has a clear methodology been provided in the application form?	✓
Has Protected sites information been included?	✓
Has a Water Framework Directive (WFD) assessment been submitted?	✓
Are all the continuation sheets for application questions appended with correct corresponding numbers?	✓

Should you have any queries regarding your application please contact the MLT via marinelicensing@naturalresourceswales.gov.uk

1. Project Description and Cost

1 (a). Project Name

Seagrass Ocean Rescue

1(b). Please provide a brief description of the proposed project, including location

To improve the status and integrity of the Welsh marine environment, 2 hectares of seagrass are proposed to be planted in Dale Bay, Pembrokeshire. This will create 2 hectares of essential fish habitat and lead to an improved natural capital value of the site. The seagrass will sequest approximately 0.6 tonnes of CO₂ per year and lead to the uptake of 70 kg per year of nitrogen from the water column. It will also help dissipate wave energy coming into Dale bay, protecting the shore line. This project will serve as a demonstration of the potential of seagrass restoration to act as a nature based solution to climate change.

1(c). Please provide an estimated gross cost of the project (Inc. materials and labour) for works that fall below/seaward of Mean High Water Springs (MHWS)

£350k

2. Applicant Details

To whom the licence will be issued. *This must be a legal entity such as an individual, registered company/ charity or public body.*

Title	Dr	Full Name	Richard Unsworth
Company or Trading Name	Swansea University		
Company Registration Number (if applicable)			
Name of Contact or individual (if different)			
Position in Company	Lecturer in Marine Biology		
Address inc. postcode (provide registered Company address if applicable)	College of Science, Swansea University, Singleton Park, Swansea, SA2 8PP		
Telephone Number	07795311166		
Email Address	r.k.f.unsworth@swansea.ac.uk		

3. Details of Agent, Contractor, Vehicles and/or Vessels used to carry out works

3(a). Agent Details

This is who we will correspond with unless otherwise informed. If no agent we will contact the applicant.

Title	<input type="text"/>	Full Name	<input type="text"/>
Company or Trading Name	<input type="text"/>		
Company Registration Number (if applicable)	<input type="text"/>		
Name of Contact or individual (if different)	<input type="text"/>		
Position in Company	<input type="text"/>		
Address (Inc. postcode)	<input type="text"/>		
Telephone Number	<input type="text"/>		
Email Address	<input type="text"/>		

3(b). Does the Applicant wish to be included in all correspondence? Yes No

3(c). Contractor Details

In order for contractors to benefit from the licence permission, details must be provided. Any details not provided with application must be confirmed before operations commence.

Contractor Company or Trading Name	Address
<input type="text"/>	<input type="text"/>
<input type="text"/>	<input type="text"/>
<input type="text"/>	<input type="text"/>

3(d). Will the works require the use of vessels?

Yes No

3(d) (i). Vessel Details (if applicable and available)

In order for contractors to benefit from the licence permission, details must be provided.

Any details not provided with application must be confirmed before operations commence.

Operator	Name of Vessel	Type of Vessel	Vessel Registration Number	Country of Registration
Swansea University	RV Calypso	6m RIB		UK

3(e). Will the works require the use of vehicle?

Yes No

3(e) (i). Vehicle Details (if applicable and available) to be used below MHWS

In order for contractors to benefit from the licence permission, details must be provided.

Any details not provided with application must be confirmed before operations commence.

Operator	Type/Description of Vehicle
Swansea University	Mitsubishi L200

3(f). If the contractor or vessels or vehicles are not known at the application stage, when do you expect to provide these details?

These details will need to be confirmed prior to the licence and operations commencement

4. Environmental Impact Assessment (EIA)

Certain projects, due to their scale, location and/or nature, may require an EIA under the Environmental Impact Assessment Directive (Directive 85/337/EEC – as amended). If a project qualifies under EIA, an Environmental Statement (ES) must be prepared and submitted with the application.

Projects that fall within Annex I of the Directive automatically require an EIA. Projects that fall within Annex II of the Directive are assessed on a case-by-case basis for the requirement for an EIA to be undertaken.

4(a). Do you consider the works to be under the Environmental Impact Assessment Directive (Directive 85/337/EEC – as amended)? Yes No

4(a) (i) If Yes, which Annex does the proposal fall under? Annex I Annex II

4(a) (ii) Which number(s) within the Annex does the proposal relate to?

4(b). Have you applied for a screening or scoping opinion from the MLT under the Marine Works (Environmental Impact Assessment) Regulations 2007 (as amended)? Yes No

4(b) (i). If Yes, please provide the reference number

4(c). Has an Environmental Impact Assessment been undertaken? Yes No

4(c)(i). If Yes, has an Environmental Statement been submitted to support this Marine Licence application? Yes No

4(d). If an Environmental Impact Assessment has been undertaken, but an ES has not been submitted, please provide an explanation

Please continue on a separate sheet if necessary. Please tick if you have done this

5. Licensable Period

Determination of applications will be based on the works taking place during these dates. Please ensure you have included an adequate contingency period. If works are not completed by the Requested Licence Expiry Date you may be required to submit a new application. *Including a contingency period within your original application does not impact on Licence Fee*

Start Date

Requested Licence Expiry Date

Please ensure you submit your application for a Marine Licence **at least 4 months** prior to the intended start date. Some projects, such as EIA projects, will take significantly longer to determine.

6. Project Description

6(a). Please give a description of the proposed project.

This should include the purpose of the project, estimated timescales of construction and operation, and broken down by the phases of works, if applicable.

Details should include, but not be limited to, dimensions of project, quantity of material being deposited and removed.

- We aim to plant a maximum of 2 hectares of restored seagrass meadow at a community stakeholder agreed location within Dale Bay. This location would fit somewhere within the coordinates of a seagrass **search area** stated in section 6(b).
- It is estimated that the meadow will take at least 5 years to develop into maturity.
- Within the 2 hectare area, approximately 1 million seagrass seeds (*Zostera marina*) and sand will be laid onto the seabed in rows of small natural fibre hessian bags held together by natural fibre hessian rope.
- There will be up to 200 lines (up to 100m each) made up of hessian natural fibre rope (6mm diameter) attached with hessian seedbags (approx 13cm x 7.5cm) all of which biodegrade after 6-12 months.
- Each seed bag will contain up to 50 sterilised seagrass seeds mixed with inert childrens play sand (approx. 100ml), approx. 20,000 bags in total.
- Seeds will be collected from a mixture of donor sources including local meadows and other sites in the British Isles and precautions taken regards biosecurity.
- Seeds will be sterilised using sodium hypochlorite and rinsed with sterile seawater in order to ensure no contamination of sites with invasive or non-native species.
- At the end of each line and at a halfway point along the lines, large hessian sandbags (30cm x 20cm) will be used to hold the lines in place on the seafloor.
- No material placed on the seabed will protrude more than 5cm above the sediment and will not cause any interaction with navigation. (**Section continued on additional sheet**).

Please continue on a separate sheet if necessary. Please tick if you have done this

6(b). Please detail the location of the proposed construction project.

This should be either Ordnance Survey National Grid Reference (i.e. AB 12345 67890) or Latitude and Longitude in decimal degrees to 4 decimal places (i.e. Lat 52.1234 Long - 4.1234), defining the extent of the project. **Please specify which coordinate system has been used.**

The proposed 2 hectare site of the seagrass planting is within Dale Bay, within the Milford Haven Waterway and Pembrokeshire Marine SAC. This marine licence application requests a licence to plant this 2 hectare area somewhere within a 38.2 hectare seagrass **search area** (see map below). The exact location would be determined in conjunction with further stakeholder engagement to determine the most suitable area for local residents. Following existing extensive local stakeholder engagement activities conducted by Pembrokeshire Coastal Forum, Swansea University propose this revised area in response to previous options proposed (contained within marine licence DEML 1925) being too restrictive due to interactions with boat moorings and fishing activities. (**Continued on additional sheet**)

6(c). The following must be provided with the completed application form:

- (i) a suitably scaled extract of an Ordnance Survey Map or Admiralty Chart with location of project, complete with **North Arrow** and **Scale**
- (ii) construction plans and sectional drawings showing those proposed works below/seaward of MHWS, which should give details of the materials to be used (for beach replenishment the quantity, particle size and source of material to be deposited and deposit location is also required).
- (iii) a descriptive schematic drawing and suitably scaled location plan which show the full extent of the project clearly in relation to the surrounding area and features.

Please list below **all supporting documents** that have been submitted with this application, including suitable documents/maps/drawing titles and reference numbers

6 (a) Project Description (cont)
6 (b) Proposed Location (cont)
7 (a) Methods statement (cont)
7 (c) Stakeholder engagement and consultation
12 (b & c) Habitats Regulations Assessments and other Policy Implications
Historical evidence
Biosecurity Assessment
Email from Natural Resources Wales
Letter from WWF
Email correspondence with Natasha Lough
Letter from Pembrokeshire National Park Authority

Please continue on a separate sheet if necessary. Please tick if you have done this

The applicant should note that these drawings/plans may be copied to others as part of the MLT's consultation procedures. If they are subject to copyright, it is the **responsibility of the applicant to obtain the necessary approvals to reproduce the documents and to submit up to 16 copies with the application.**

7. Methods Statement

7(a). Please provide a detailed method statement for the works

This must include methods for all works including temporary structures or deposits such as jetties, cofferdams, moorings or landing stages to be constructed seaward of MHWS

- 200 lines of hessian rope with attached bags of seagrass and sand will be deployed from the the RV Calypso (or alternative local vessel) by hand at very low speed during periods of low to mid tide onto the seabed.
- Deployment of the lines will be by hand from the boat and not involve any machinery.
- Lines will be laid parallel to each other approximately 1m apart.
- At the end of each line and in a central location an additional large sand bag will be attached to assist with anchoring the bags to the seabed.
- During the laying process a series of marker bouys will be attached to each end in order to assist with guiding the lines into a parallel configuration. These will be removed immediately after completion and only be present whilst the RV Calypso is working at the site.

- Once the bags have been laid, a series of 8 marker bouys will be placed at the edges of the seagrass planting area to help communicate with local stakeholders as to the location of the planting. These flagged bouys will be comprised of weighted (sinking) rope attached to a 20kg weight and clearly marked with a solid buoy labelled with the words SWANSEA UNIVERSITY RESEARCH.
- Scientific Diving operations will be conducted at the site after the lines have been deployed in order to ensure the correct siting of the lines. These operations will be conducted in communication with the Port of Milford Haven.

(Continued on additional sheet)

Please continue on a separate sheet if necessary. Please tick if you have done this

7(b). Do you intend to undertake activities that could generate underwater noise?

This include piling, use of explosives, geophysical, acoustic deterrent devices and multibeam echosounders.

Yes No

7(b) (i). If Yes, what type(s) of activities will be undertaken?

n/a

7(b) (ii). If Yes, approximately how many days will the activity be undertaken for?

n/a

If Yes, you will be required to complete an additional form that will be provided.

7(c). Please state the measures to be taken to:

- (i) Minimise risk to the marine environment

Biosecurity related to the import of invasive or non-native species has been flagged by Natural Resources Wales and the Milford Haven Port Authority as a significant risk of this project to the wider Pembrokeshire SAC. All seeds planted will be sterilised prior to planting to ensure no introduction of alien or invasive species and all sand used will be inert clean 'child's sand'.

(ii) Prevent undue interference to others

Throughout the summer period of 2019, the project has been undertaking a range of stakeholder engagement activities about the proposed habitat restoration project with the aim of ensuring that the project causes no undue interference to others and specifically has no deleterious effects on local livelihoods. This has been led by Pembrokeshire Coastal Forum in conjunction with Swansea University and the Special Area of Conservation Officer. **(Continued on additional sheet – see Stakeholder engagement and consultation)**

(iii) Maintain navigational safety, including marking and lighting of works

8 marker bouys will be placed at the edges of the seagrass planting area to help communicate with local stakeholders as to the location of the planting. These will be comprised of weighted rope attached to a 20kg weight and clearly marked with a solid buoy labelled with the words SWANSEA UNIVERSITY RESEARCH.

Please continue on a separate sheet if necessary. Please tick if you have done this

8. Materials of Project

8(a). Description of materials to be deposited seaward of MHWS (Please tick all that apply)

Timber	<input type="checkbox"/>	Iron/Steel	<input type="checkbox"/>	Concrete	<input type="checkbox"/>	Biocides/other chemicals	<input type="checkbox"/>
Silt	<input type="checkbox"/>	Stone/Rock	<input type="checkbox"/>	Gravel	<input type="checkbox"/>	Plastic/Synthetics	<input type="checkbox"/>
Sand	<input checked="" type="checkbox"/>	Other	<input checked="" type="checkbox"/>				

If other, please provide a description of materials.

Seagrass seeds cleaned of any biosecurity risks
Clean child's play sand (e.g. <https://www.argos.co.uk/product/3650574>) at 100g per small seed bag (total 2000kg) and 2kg per large anchor bag (total 1000kg)
20000 small hessian 'seed' bags (approx. 13cm x 7.5cm) (natural fibre)
500 larger hessian 'anchor' bags (approx.. 30cm x 20cm) (natural fibre)
200 hessian fibre ropes (up to 100m long)

8(b). Delivery method of materials to site

If sea delivery, please include details of vessels to be used with a chart of proposed route and transshipment area. If vehicle delivery, please provide the proposed access route.

Use of small pick up truck or van with boat loading via Port of Milford Haven as Dale pontoon will be unavailable during the winter period.

Please continue on a separate sheet if necessary. Please tick if you have done this

8(c). Will the works involve removals seaward of MHWS? Yes No

8(c) (i). Description of materials to be removed seaward of MHWS (Please tick all that apply)

Timber	<input type="checkbox"/>	Iron/Steel	<input type="checkbox"/>	Concrete	<input type="checkbox"/>	Biocides/other chemicals	<input type="checkbox"/>
Silt	<input type="checkbox"/>	Stone/Rock	<input type="checkbox"/>	Gravel	<input type="checkbox"/>	Plastic/Synthetics	<input type="checkbox"/>
Sand	<input type="checkbox"/>	Other	<input type="checkbox"/>				

8(c) (ii). Description of objects/materials to be removed seaward of MHWS
Including quantities to be removed.

none

9. Beach Replenishment, Land Reclamation or Salt Marsh Feeding

For works involving any of the above, please provide the following information

9(a). Is the material to be deposited like for like to existing material? Yes No

9(a)(i) If No for Beach Replenishment please provide justification why?

9(b). Description of material to be deposited

Please provide the grading specification of materials to be used, if using a range of grain sizes please state the percentage by weight passing. *If unsure, please refer to the Wentworth Scale*

Fine sand in the range of 0.125 to 0.25 mm

Please continue on a separate sheet if necessary. Please tick if you have done this

9(c). Source of the material to be deposited

Including dredged or land based stating the origin of material

Sand to be purchased from Argos superstores

9(d). Has the material been chemically analysed? Yes No
If material has been analysed, we may request this information to determine the application

9(d) (i) If Yes, is the analysis data been included with the application? Yes No

10. Temporary Works

10(a). Will there be any temporary deposits below MHWS? Yes No
This includes construction materials, removed objects/material, jetties or cofferdams
If **Yes**, please continue with section 10

10(b). Please provide the location of temporary deposits
Please include a map/chart displaying the location of temporary deposits, if necessary.

10(c). Description of temporary deposits

Please continue on a separate sheet if necessary. Please tick if you have done this

11. Dredge and Disposal of Dredge Material

If you are undertaking Dredge and Disposal activities please also complete the Dredge and Disposal application form and submit together.

11(a). Do you intend to apply for a marine licence to dispose of dredged material to sea as part of the works in this application? Yes No

12. Protected Sites

Licensing Authorities have a duty to ensure that projects will **not have significant adverse environmental impact**, particularly on any designated **European Site of Conservation Importance - Special Areas of Conservation (SAC) and Special Protection Areas (SPA)**, listed under the Habitats Directive (Council Directive 92/42/EEC on the conservation of natural habitats and of wild fauna and flora). In addition, it is Government Policy that Wetlands of International Importance (Ramsar sites) are also considered as European

Sites. There is a duty to take reasonable steps to further the conservation and enhancement of nationally designated sites (Sites of Special Scientific Interest (SSSIs).

12(a). Have you had pre-application correspondence with NRW, its legacy bodies or Natural England? Yes No

12(a)(i). If Yes, please provide copies of correspondence with application and state which team(s) you have contacted?

Natasha Lough, Natural Resources Wales

12(b). Are any part of the works located *within* or *likely to affect* a designated conservation site? (SAC, SPA, SSSI or Ramsar) Yes No

12(b)(i). If Yes, which designated site(s) may be affected?

Please see attached statement titled '*Habitats Regulations Assessment and Other Policy Implications*'

12(c). Please provide a description of all mitigation measures proposed to avoid any impact on designated conservation sites.

Please see attached statement titled '*Habitats Regulations Assessment and Other Policy Implications*'

Please continue on a separate sheet if necessary. Please tick if you have done this

12(d). If the works are not located *within* or *likely to affect* a designated conservation site, please indicated the approximate distance to the nearest designated conservation site.

Please note that if the proposed works are in or within 2km of a European Site of Conservation Importance you will have to provide suitable mitigation measure to avoid any impact on designated conservation sites.

13. Other Consents

Please detail all consents that you have applied for or received for these works

Type of Consent	Applied for	To be applied for	Reference Number	Date of Issue and Expiry
Planning Permission under Town and County Planning Act 1990 – From Local Planning Authority (LPA)				n/a
Name and Address of LPA for location of works	n/a			
Land Owners Consent such as The Crown Estate Consent		Yes		
Port Authority or Local Harbour permissions		Yes		
Other NRW consents such as Flood Defence or SSSI assent				
Details of NRW consent				
Other consents such as Transport and Works Act Order, Section 36 Electricity Act, grant/loan sanction				
Details of other consents				

14. Statutory Powers

14(a). Does the applicant have statutory powers to consent any aspect of the project?
 E.g. coast protection authority, dredging powers, statutory undertakers Yes No

14(a)(i). If Yes, please give details and state the relevant legislation that gives these powers

15. Public Register

Under The Marine Licensing (Register of Licensing Information)(Wales) Regulations 2011 and the Environmental Impact Assessment Directive (Directive 85/337/EEC – as amended) , all information contained within or provided in support of this application will be placed on the Public Register unless NRW approve of the applicant's reasons for withholding all or part.

15. Is there any information contained within or provided in support of this application that you consider should NOT be included on the Public Register on the grounds that its disclosure:

15(a). Would be contrary to the interest of National Security? Yes No

15(b). Would prejudice to an unreasonable degree you, or some other person's commercial interest of those of a third party? Yes No

If **Yes** to either (a) or (b), please provide full justification as to why all or part of the information you have provided should be withheld

Please continue on a separate sheet if necessary. Please tick if you have done this

16. Application Fee

16(a). What are the corresponding fee band for this application? Band 2 Band 3

16(b) Band 2 Only

Projects are charged at a fixed fee of £1920. The application will not be processed until the correct fee has been provided.

Please provide the method of payment

Method	Yes (✓)	Reference Number
Cheque		
BACS (not remittance no.)		
World Pay (phone or CC1)	✓ Yes	'For payment over the phone by credit card please contact Bioscience stores on 01792 295442, alternative contacts Andrew Gregory 01792 295121 or Alan Davies 01792 295132. Our order reference number is 10072493. Our NRW payment reference number is PRCAPPSWANS493

Please attach **CC1 Form** with application. Can be found on our web pages

16(c) Band 3 Application only

Band 3 applications are charged at on hourly rate of £120 and are invoiced in arrears. Please complete the details below which will be required for invoicing.

Customer Name

FAO

Purchase order number

Address for invoice

Telephone Number

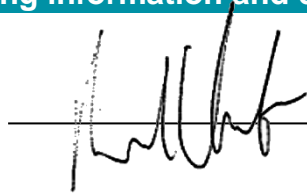

Email Address

17. Declaration

I declare that to the best of my knowledge and belief that the information given in this application form and supporting documentation is true.

WARNING: It is an offence under the Marine and Coastal Access Act 2009, under which this application is made, to fail to disclose information or to provide false or misleading information and can invalidate any licence granted.

Signature

Date 11/10/2019

Name (*in capitals*) Richard Unsworth

Position in Company Lecturer in Marine Biology

*Applications cannot be processed unless signed by the **Applicant** (not agent), the applicant must have appropriate level of authority within the company.*

Applications will not be processed unless signed
