Section 1 – Compliance Assessment Summary

This is based on the requirements of the permit under the Environmental Permitting Regulations or the licence under the Water Resources Act 1991 as amended by the Water Act 2003. A detailed explanation is captured in "Compliance Assessment Report Detail" (Section 2) and any actions you may need to take are given in the "Action(s)" (section 4). This summary details where we believe any non-compliance with the permit has occurred, the relevant condition and how the non-compliance has been categorised using our Compliance Classification Scheme (CCS). CCS Scores can be consolidated or suspended where appropriate, to reflect the impact of some non-compliances more accurately. For more details of our CCS scheme, contact your local office.

Permit conditions and compliance summary	CCS Category	Condition(s) breached
A1 - Specified by permit	A	
B3 - Infrastructure - Site drainage engineering (clean and foul)	A	
B4 - Infrastructure - Containment of stored materials	A	
C1 - General Management - Staff competency/training	A	
C2 - General Management - Management system and operating procedures	A	
C4 - General Management - Storage, handling labelling and Segregation	A	
D1 - Incident Management - Site security	A	

KEY: See Section 5 for breach categories, suspended scores will be indicated as such.
A = Assessed or assessed in part (no evidence of non-compliance), **X** = Action only,
O = Ongoing non-compliance, not scored.

Number of breaches recorded	0	Total compliance score (see section 5 for scoring scheme)	0
------------------------------------	----------	---	----------

If the Number of breaches recorded is greater than zero, please see Section 3 for our proposed enforcement response

- A reference to photos taken

NRW carried out a routine inspection of Greenacres Skip Hire on 23/01/2020. NRW Waste Regulation Officers Michael Edwards and James Kinhead attended, and were accompanied onsite by Mr Paul Nicholas for the site inspection. This was an unannounced inspection.

Waste Storage.

All loose or unsorted waste is being kept inside the main building on an impermeable surface. At the time of the visit all manual sorting activities were contained within the main building only. All waste appeared to be well segregated in separate storage areas or containers. The cardboard bay appeared to at capacity (see image 1) however Greenacres staff explained it was ready to be taken offsite soon. No other waste areas or containers appeared to be overfilled or contaminated.

Site infrastructure.

The site is in good general condition. No breaks in the impermeable surface, leaks or pooling of water was noticed. Staff pointed out the sump drainage system underneath the separate containers storing RDF and Asbestos. No leakage from these containers was observed.

Site CCTV was present and observed in operation.

Other observations.

Copies of the site Permit and EMS were available in the site office upon request. A copy of an up-to-date site map was also taken by NRW for our records. Thank you for providing this.

The WAMITAB documentation for both Paul and Andrew Nicholas is due to expire on 17/12/2020 (image 2). Paul Nicholas informed us he will renew these within the year.

NRW would like to thank Paul for his time during the inspection.

Section 3 – Enforcement Response

You must take immediate action to rectify any non-compliance and prevent repetition. Non-compliance with your permit conditions constitutes an offence and can result in criminal prosecutions and/or suspension or revocation of a permit. Please read the detailed assessment in Section 2 and the steps you need to take in Section 4 below.

Section 4 – Action(s)

This section summarises the actions identified during the assessment along with the timescales for when they will need to be completed.

Criteria Ref.	CCS Category	Action required/advised	Due Date
See Section 1 above			

Section 5 – Compliance notes for the Operator

To ensure you correct actual or potential non-compliance we may

- Advise on corrective actions verbally or in writing
- Require you to take specific actions verbally or in writing
- Issue a notice
- Require you to review your procedures or management system
- Change some of the conditions of your permit
- Decide to undertake a full review of your permit

Any breach of a permit condition is an offence and we may take legal action against you

- We will normally provide advice and guidance to assist you to come back into compliance either after an offence is committed or where we consider that an offence is likely to be committed. This is without prejudice to any other enforcement response that we consider may be required.
- Enforcement action can include the issue of a formal caution, prosecution, the service of a notice and/or suspension or revocation of the permit.

See our Enforcement and Civil Sanctions guidance for further information

This report does not relieve the site operator of the responsibility to

- Ensure you comply with the conditions of the permit at all times and prevent pollution of the environment
- Ensure you comply with other legislative provisions which may apply

Non-compliance scores and categories
